

## Allies Drive the Germans Across the Yser River; Russians Win in Poland

## Russians Win in Poland

And Also on Woman Suffrage

**IN VICINITY OF CRACOW**

---

In the West the Allies Are  
Keeping Steady Pressure

Washington, December 12.—Members of the house of representatives will be called upon to take definite stands on national prohibition and woman suffrage as a result of action today by their committees. It was decided to report special rules for consideration of constitutional amendments on both subjects. Yea and nay votes will be required.

Speaker Henry said the rule on the Heaton prohibition restoration bill, which prohibits restoration of rights to persons convicted of crimes, will be taken up first.

presented December 22 and after eight hours debate would be pressed to a vote. The suffrage resolution, he said, will follow immediately. The action of the committee as to the evidence that democratic leaders were determined to limit the holiday to a recess of two or three days.

Prohibition and suffrage supporters

immediately began to line up their votes against the Russian ultimatum. Henry issued a statement saying he would vote against both of the resolutions. The next day it was predicted that the special rule would be passed, as a majority vote only is required. Opponents of the two resolutions are said to believe that neither of them would have the necessary two-thirds majority on the floor.

It is admitted in Berlin, however, that the Russian resistance is by no means hopeless. The German state today that its cavalry has repulsed the Russian horsemen on the East Prussian frontier; that in north Poland the German operations are developing and that in the Baltic the Russian attacks have been unsuccessful.

It is admitted in Berlin, however, that the Russian resistance is by no means hopeless.

**The Prohibition Amendment.**—The prohibition amendment would prohibit "the sale, manufacture for sale, transportation for sale, importation for sale, exportation for sale of intoxicating liquors for beverage purposes in the United States and all territories subject to the jurisdiction thereof are forever prohibited."

The amendment proposes to declare that the right of citizens to vote shall not be denied on account of race, color or previous condition of servitude.

Means broken, although, according to German estimates, the Russian army is exceeding the evacuation of Lódz, the Russians lost 150,000 men, including 80,000 captured, while the German losses were slight.

**GERMAN SCHEME WENT WRONG.**

Nevertheless it is now declared by

The prohibition question will be brought into the house Tuesday, December 12, and when it is taken up, the prohibition suffrage will be taken up.

The rule for consideration of the House Constitutional amendment for nationwide prohibition was voted out unanimously by the committee. Its passage would require a two-thirds vote in the full house.

British commentators that something went wrong with the timing of the referendum, and that the lack of relief of Cracow. Convergling columns apparently failed to effect a junction with the result that General Dimitrieff, former Bulgarian minister to London, was sent to the Balkans to inflict a sharp reverse on the Teutonic forces by repulsing the indur-

to admit it to record vote in the house. It provides eight hours of debate and unlimited opportunity for amendment.

The rule for a vote on the Wendell Willkie amendment was set out 4-5. Representative Foster, democrat, of Illinois, by joining the two republicans and the one pro-war congressman, the three democrats who were opposed to it.

Further to the north the engine of the German war effort, so far as is known, has had no spectacular sequel. Yesterday's German official report did not refer to operations along the center, although it mentioned military operations in north and south Poland.

**GERMANS FAIL TO ADVANCE**

Chairman Henn declared one day would be allowed to each of the proposed speakers, and the session was kept in session until they were disposed of.

Representative Campbell, Lenroot and Kelly, with Foster, outvoted the resolution to adjourn, and Representative Goldfogle, another democrat, declined to take the floor. The session will allow six hours of general debate and the usual opportunity for amendments.

[illegible]

**STREETS COVERED  
BY WHITE MANTLE**

Early This Morning Snow

Was Falling Fast in Center of the City and Sticking to Pavement.

Just after the clock struck the hour of 11 this morning and the new day

appearance in Atlanta, bringing with him a steady fall of small white flakes that grew larger as the morning wore on.

As the day carries the weather grew cooler and when Atlantans ventured forth today they had to be in need of overcoats and mittens.

From all appearances the snow fall will be light.

Excess since first of month, inches 4.6  
Deficiency since January 1, inches 2.4

### The Christmas Gift

"Back of all birthdays is the wonderful fact of birth, Nature's most holy manifestation." By the same token, back of all gifts is the beautiful spirit of giving, the noblest impulse of the heart of man.

It is fitting, therefore, that when we employ the art of giving to commemorate the greatest of all birthday anniversaries, that we select a gift that will really carry with it the spirit of the day and be a complete symbol of the love which prompts its sending.

*Davison Paxon Stokes Co.*

### A Sale of Beautiful Blouses at Half Price

We have assembled a little special group of forty pretty novelty blouses—one of a kind, mainly—two of some—they are all lovely—Georgette crepes, crepes de chine, some of filmy lace—others of Dresden chiffon—in many fashionable effects and color tones. They are regular \$6.75 to \$15 blouses—priced for this sale at exactly half—\$3.38 to \$7.50.

### Important!

Monday, we are going to sell our entire stock of Trunks, Suit Cases and Bags at decided price reductions. Many people will buy them for Christmas gifts.

Included—also at extreme reductions—are some white enamel mirrors, a few odd pieces of furniture and dinner chimes.

Well worth your while to investigate Monday.

Daily and Sunday, carrier delivery, 13 cents weekly. Single copies on the streets and at newsstands, 5 cents.

## NATIONAL CONGRESS MOTHERS AND PARENT-TEACHER ASSOCIATIONS

Letter From State President.

In order that our department may contain things of interest to the state-at-large, I earnestly request each district vice president, as well as the presidents of the various parent-teacher associations and Mothers' clubs, to send their reports to the state chairman of the publicity committee just after their meetings. These reports should give the work accomplished through the different committees, as well as the programs that have been arranged. The work of your association will inspire and stimulate other associations to greater effort.

Never in the history of our great organization have we had more enthusiasm than now. Your president is receiving calls to visit different sections to organize parent-teacher associations and to assist in better habits contests. These two departments seem to be creating a state-wide interest, and they are all-inclusive. The better habits contest and exhibit cares for the child until school age, where parent-teacher associations begin and continue through graduation.

It might be well to mention the fact that for better habits, work begins with parental influences and then with the care of the physical nature of the child in infancy. This includes food, sleep, bathing, sleep, bathing, exercise, fresh air, habits, disease, care of the eyes, hair, scalp, mouth, etc., nails and ears.

**Child Hygiene and Sanitation.** The work of the Parent-Teacher Association is as broad as we wish to construe the meaning. Every department included in the national and state work is included in each of these departments as they are all-inclusive. Now, let me urge every mother who is sincerely how every association will have the department of child hygiene and sanitation. I believe every mother is vitally interested in promoting good habits for the community as well as for the home.

It is a well understood fact that each individual association has its own problems that must be solved. In order to bettering the community in which it is located and by the association and its officers. Each association is an individual one, and its government is entirely in its own hands, hand-dropped neither by the state or national. But each is a part of the whole, to make up one grand organization, whose sole purpose is the welfare of the child and the present and future generations. Now, let me urge every mother who is not a part of this body to join the nearest parent-teacher association in her district. If you have no organization, consult your principal, school and organize one. If you don't feel equal to forming an association, write your district vice president for help. Every member of a parent-teacher association of church or school, who has a membership card, stating the aims and purposes of the national body, when they send in their list of members to the state secretary, accompanied with the 10 cents per capita for each member. These names are sent to the national office, where they are registered and kept. In this manner it is possible to know the membership of each state.

**What the National Does.** Five cents per capita is forwarded with the list of names, so you see the national is only receiving 2 cents from each member. Let me say here that I am frequently asked, "What do I get in return for the 10 cents I send from my own association?" First, let me mention that it is not a power that is so subtle that you feel you are being benefited, but it is a real fact. The national furnishes your president with means to supply each of the district vice presidents with amount necessary to extend the work in her district. This is far more than we receive from the state. The national, you see, gives us in return more than they receive from us. Then we have the inner consciousness of knowing that we are doing our best effort toward bettering the conditions for the children of our state. We may have laws that are adequate for the protection of children, but if mothers, real and universal, are not interested in the children of the community, will these laws always be effective?

While we have accomplished much, yet we need the support of many more organizations that we can have under to carry out what we have undertaken. If every mother would use her influence toward raising the age of consent, how long would it be until this present law would be changed? We read what other states have done, and everything is possible for Georgia that has been accomplished elsewhere. What we need is a united motherhood, all working for the one great purpose—the welfare of our children.

I stand ready to help in any district that specially needs my service, and let me again ask you to assist me in our state work by giving our department the news from your section or mothers' club just after each meeting. Please send the same to our publicity address at top of page. Cordially yours, MRS. HOWARD FAYNE, State President.

**North Avenue Association.** The things undertaken by the North Avenue Parent-Teacher Association, and that were carried through, mean much to the city-at-large as well as our particular district. Under the leadership of Mrs. George Haugh, the old dance-de-leon park was converted into a summer playground for the children of that district. No other district has done this. The ladies of this district know how much work is required to assist the children who were enrolled during the summer at this playground. The evening daily attendance was something over 200.

The city also provided for the children, and the mothers were there daily to assist the children in games. A graphophone was furnished for our Parent-Teacher Association, and this gave the children opportunity for dancing.

Mrs. Haugh, who has worked so untiringly for this playground, was unable to attend our recent meeting, much to the regret of the association. At our last meeting, Mrs. Haugh was invited to talk on the afternoon, was invited to give a most interesting talk on the importance of the line between the children to do their work. This was a timely reminder for the mothers to understand these changes.

The Ladies of the North Avenue school, has recently contributed to the city a driving wheel, a memorial to his little son, who passed away during the summer vacation. MRS. E. I. ASHLEY.

## KEELY'S

Let your gift cost little or much—if it be practical it will be welcomed.

### Gift gloves

Fownes' celebrated gloves in a gift sale at \$1.50 pr.

Gloves are an ever welcome gift, the more fastidious the woman is the happier she is to receive gloves as presents. Fownes' gloves in fact need not be emphasized. They are real kid, perfect workmanship and dressy in appearance, besides being the most durable and economical gloves known to the trade. There is no substitute for them in the kid glove field.

Of course women who know them will have none other. Fortunately we are able to offer them in black, white and tan. Paris point embroidered, also three rows heavily stitched, in 2-clasp styles.

### Gift furs

Child's and Misses' fur sets from \$3 to \$25

Many people are securing furs as holiday gifts for their girls. Fur sets are really among the most practical, useful and giftable of all presents, as they are welcomed by the recipient. Every girl will be proud in the possession of a Keely fur set.

—natural squirrel sets  
—imitation ermine sets  
—gray fur sets  
—brown fur sets  
—tan fur sets  
—taupe fur sets  
—white fur sets

### Gift stockings

A special sale of silk stockings for gift seekers begins Monday morning \$1.00 at \$1.00 pr.

Women's pure thread silk hose, in black, white and colors. Silk hose are so popular for gifts that many women are presenting them to their friends, by the box, 3 or 6 pairs in box. This special offering is of pure ingrain silk hose, garter tops, high spliced heels and double soles. These are made in two weights, your choice of either. Black, white, electric, taupe, suede, navy and greens.

A sense of grateful appreciation is associated in the recipient's mind with your gift if it be useful and practical. It's a constant reminder of the giver

## Keely Company

All are of rich patterns and proper widths for the making of Xmas presents in fancy work, as well as ribbons for personal uses, including Persian warp ribbons, Roman stripe and plaid ribbons, brocade ribbons, moire satin, taffeta and meshing ribbons. All colors in hundreds of new designs.

Gift suggestions in every department afford many money-saving opportunities.

## KEELY'S

The gift tree is in full flower here—a store full of useful gifts.

## KEELY'S

Get \$250 Damages.

Valdosta, Ga., December 12.—(Special.)—Willis D. Moore, a traveling salesman, who sued the Valdosta Street Railway company for \$15,000 damages alleged injuries sustained when a street car ran into his automobile, was given the sum of \$250 in the superior court yesterday.

The accident in which Mr. Moore was hurt occurred on Hill avenue some months ago. Moore had stopped his car about dark to light his lamp, and while doing so the automobile was struck by a street car, throwing it over and catching Moore underneath. The automobile was partially wrecked and Moore laid up in the hospital for some time.

Also the obligation of the man with money is clear.

Fortunes are made by the collective activities of the community.

We owe something to the men and women who help make them.

That is axiomatic.

No one plans to thrust a bond issue on the market at the present moment.

It will be some time before the issue can even be authorized.

But it should be to the interest of all to dispose of the preliminaries, so that when bonds can be marketed to the best advantage no time shall be lost.

The council committee that meets this week has its course charted before it. The only question is as to terms, and those may safely be left to its judgment.

## TACT IS RIGHT.

In a recent address at Somerville, Mass., former President Taft told his audience that there ought to be some way to protect the federal government against the present power of the single state to involve all its citizens in trouble with a foreign power. Mr. Taft said that such a provision would be among the foremost measures for prevention of war, so far as this country is concerned.

The former president had in mind, of course, California and possibly New Mexico and Arizona. These three states figured in international friction during his administration, California especially. Right now we are getting a dose of the ability of a state or two to pull the rest of us into hot water, with regard to firing across the Mexican border. Of course, the menace to life and property thus created is not to be tolerated, but there ought to be some way to adjust it without involving the whole country.

In the case of California the illustration was a perfect one. Here was a problem peculiar to one state, or at least acute in one state only. Even then the situation had to reach a crisis and appeared to be receding rather than becoming aggravated. Yet demagogic and incendiary racial prejudice reared on its hind legs and through three administrations threatened to involve the whole country. Patient diplomacy at Washington, the whole truth of which has never been written, averted a crisis. But no credit was due to the forbearance and thoughtfulness of our fellow-Americans in California.

If the state is to call on the nation when it is confronted by another nation, which was the case on the Pacific slope, then it follows inexorably that the nation should have some primary rights, at least in the matter of consultation. If the war settled anything beside the issue of slavery, it settled the supremacy of the central government. That holding, the right of the single state to jeopardize, much less infringe, treaty rights is so slight as to belong in the realm of metaphysical speculation.

Fortunately, the states seem voluntarily to be coming to an understanding of their relation to the central power. It is possible that the most satisfactory process of adjustment will be that of natural events rather than of law.

## A DIPLOMAT IN KHAKI.

Returning to his Kansas home for a visit the other day, and looking out of the train window at the rolling acres, General Fred Funston expressed the wish that he had had "sense enough to stay in his Kansas home."

Considering the abounding prosperity that has come to Kansas in the past few years and the career of the man who has been the high road to wealth, as it is, he must look forward ultimately to the pay of a retired officer, and his reputation, as his chief material reward.

At that, few men have had the opportunity to have Funston to serve his country and to capitalize it with such signal and modest success. One may or may not think that the expedition to Vera Cruz was a march up and down the hill. But as to Funston's part in it, and the credit that is due him, there can be no mistake in the mind of the most partisan.

The job of occupying Vera Cruz and administering it required a blend of the soldier, the diplomat and the administrator. Funston displayed all three faculties with rare and equal success. He was committed to the Wilson policy of "watchful waiting." He had to hold his men in check. The slightest flaw in administration, the briefest departure from delicate tact with suspicious Mexicans of all factions, and he would have brought a hornet's nest about his ears and, incidentally, the ears of his country.

That he completed his assignment with no untoward incident and left with the apparent friendship of all, a winning confidence in a rare tribute to the personality of the man. Sometimes we wonder if the American diplomat in khaki is not more efficient than the diplomat in evening suit and with a string of university degrees after his name.

## THE SIGN OF THE SEAL.

Americans, and southerners especially, are in a state of excitement over the unprecedented array of appeals to their hearts and purses. In the midst of these petitions, the call of the Christmas seal, the little red stamp sold for funds to fight tuberculosis, should not be forgotten.

In a city where the street car companies started last Thursday and will run one

week. In addition, they can be bought at almost any of the stores. Each day of the week's campaign, some well-known woman of Atlanta is to be in charge and the effort is to be to push the sale with vigor.

The European war, as it comes, is with us and will go. Tuberculosis has been with the race as long as memory runs, is here in tragic profusion and shows no radical sign of receding.

Money spent for Christmas seals is money spent for self-protection, for a health policy for one's self and family, to put the matter on purely selfish grounds. Tuberculosis is among the most communicable of diseases. We meet it everywhere, and it does not often convey such a warning as that we may go on guard against it. The surest protection is education and gradual elimination, and both methods require money and lots of it.

In Atlanta the work has progressed encouragingly. Educational publicity, free clinics and the sanitarium are making an appreciable impression upon the death rate, and what is equally important, the rate of spreading. But in its very nature the campaign is one which requires constant feeding. Incessant watchfulness carrying troops into new territory, so to speak, keeping public sentiment at concert pitch and preventing it from relapsing into ineffectual maddism.

Something of the scope of the work that is represented by the Christmas seal. Nominally, the movement is a philanthropic one. At bottom, its motives are essentially those based on economics and self-preservation.

## THE FARMER THE PIVOT.

If further proof were needed of the fact that the farmer is the pivot of the whole business and economic machine, it is found in a recent and obscure little dispatch from Arkansas. It was related that cotton was moving more freely, being more freely disposed of in that territory.

The farmer pays the merchant. The merchant pays his city banker. The city banker pays his city banker. Oil percolates through every part of the business machine and it is the farmer that applies the oil.

The benefit comes back to him. For these men in Arkansas, restored to employment in the railway shops, will be farmers of the farmer; they will increase the spending capacity of the community. Whatever does that reaches right back every time to the producer, who is the farmer.

It has taken the farmer some weeks to learn his responsibility on the full credit of the current crisis. He has about found himself at both angles. The movement of cotton is one indication. The general liquidation of debts another. The increasing easing off of tension in the country another, and not unimportant one.

## SWINGING TO SANITY.

Singularly, and with an unusual unanimity of voice, the press of the country halts the Missouri referendum on the full credit bill as one of the most conclusive signs that the era of bailing the railroads has passed. The bill required that certain extra trainmen be used on trains, the services of which had been absolutely superfluous to safety or service, as testified by experts, but which would have cost the carriers of the state \$500,000 a year. According to the Missouri law, the bill went to a referendum vote before becoming effective.

A sign of the times, the bill, in fact, generally the first target of the demagogue, voted almost solidly against the bill. The cities went against it heavily as a rule, and the support accorded it was negligible. Had the bill been offered for popular vote five or six years ago there is little question it would have carried with a whoop. We have just emerged from the decade of the demagogue, during which one of the chief assets of that genus was harassing the carriers. It is true that the carriers brought much of the trouble on their own heads by vicious financial and operating practices extending over a long period. The "public be damned" motto has not yet been forgotten. But even after the railroads showed unmistakable signs of regeneration, the demagogues refused to let up on them. They had discovered a new thing, a fine vote-catcher, and they were minded to ride it the last mile.

The reaction was, of course, inevitable. People sooner or later discovered that even after the railroads had cleaned house they had difficulty in financing their debts, or in pleasing near-statestemen because the near-statestemen were thriving on the railroad errors of the past. During this period it grew into a superstition that the people could "bail" the railroads, and approve what the railroads were "bailing" even after it was discovered that "bailing" the railroads sometimes meant "swatting" the public.

The people of Missouri have dispelled that unhealthy hallucination. The Constitution believes their verdict is typical. The railroads have been put on their good behavior. But we doubt if they need fear an early recurrence of the day of bailing.

No simplified spelling for those Russian names. You still have to take them at one big mouthful.

Only Santa Claus the children don't believe in is the one that has whiskers to burn.

The kaiser's cold got by the censor. Probably because the censor didn't want it.

Of course there's a Santa Claus. There are the world-whiskers to prove it.

There is hope. Old Morehead-John is still on the job in congress.

## The Holland Letter

Substantially the first words which were spoken by Sir George Pauley, his coming, in England, after two months' visit in the United States, were the assertion that if the United States could get the world to trade which England, France and Germany have lost because of the war, American capital must be used to get the world to trade which England, France and Germany have lost because of the war.

One can be brought in touch with leaders in the financial district without learning that they are already conversant with the financial situation of the world. Possibly the United States may indirectly lead to France, although the right attitude of neutrality which is now maintained by the government would undoubtedly make a direct loan impracticable.

Within a few days there have been made to Sweden and to Panama. There are some who think that one or two of the South American countries are ready to approach the United States with intent to negotiate considerable loans here. Russia has already established a large credit in the United States and is now making a loan to the United States.

Sweden has not been able to secure in New York the kind of opening banking facilities which it was reported as at one time having secured. The bank now is carrying between fifty and sixty million dollars in cash, and is ready to cover the transactions of the Swedish government.

## The Old Cloud-Man

BY FRANK L. STANTON

LIBERTY ter de story of de ole Cloud-Man: His home's up yander whar de Blizzard blow de ban; De skered wot' trumble lak it's Kingdom Come

Wen he tell de sleepy Thunder dar it's time ter beat de drum.

Oh, he call de Win's ter mettin'.

De fly 'cross de land.

De ole Cloud-Man yander.

Is de wonder-worship man.

NOW, de ole Cloud-Man is smakin' up de snow.

De ferter pell all de travelers on de way whar dey go.

Dar's a gray wall 'round him whar de Elements stay.

De dar's hide out, kase he'd blow 'em all away.

F'm Fallin' ter Winter.

He plot 'em ter plan.

He de snowshoe builder—

Is de ole Cloud-Man.

HE take all de Hills an' he kiver 'em white.

Till dey look lak 'ghosts ter de chillun in de night;

De home-rod 'n' 'in de snow-accin' down</

# S. I. A. A. INTO TWO CLASSES BY AMENDMENT

**S. I. A. A. DIVIDED INTO TWO CLASSES BY AMENDMENT**  
One to Prescribe to 1-Year Rule and Other to Ignore It—Schools Can Choose Class to Play In.

## UNIFORM ONE-YEAR RULE WAS DEFEATED

**Smaller Colleges United Against It—Division Will Make Two Championships Necessary in Association.**

Lexington, Ky., December 12.—Modification of the rule of the Southern Intercollegiate Athletic association, providing that members with an enrollment of more than 400 students shall play freshmen their first year, was defeated today in a constitutional amendment adopted at the association's annual meeting.

The amendment dividing the membership into two classes, irregularly providing that the one-year rule shall apply to the smaller colleges, while the larger ones will be allowed to play freshmen their first year, was defeated by a vote of 17 to 10.

Adoption of the amendment would have placed the one-year rule in force for the 1915-16 season, and would have made it necessary for the association to make two championships necessary in the association.

More than twenty southern universities and colleges were present at the annual meeting of the association, which was held at the Hotel Hamilton in Lexington, Ky., on Saturday.

The question of modifying the association's rule to provide for the one-year rule was brought up for consideration by a committee of which H. H. Shultz, of Georgia, was chairman.

Shultz, who has been named captain of the 1915 Washington and Lee team, was the only member of the committee to vote in favor of the amendment.

Shultz's motion was defeated by a vote of 17 to 10, and the association will continue to play its games under the present rule.

The association's annual meeting will close today with the election of officers for the coming year.

## CLASS FOOTBALL STARTS AT TECH

In Double-Header Saturday the Teams Fought to Two Scoreless Ties—Good Football Played.

The Tech classes opened their football season yesterday afternoon with two exciting games, both of which were 0-0 affairs, between the seniors and the freshmen.

In the senior-sub game the former outplayed the latter all during the game. The subs were seriously threatened the entire afternoon, while the upper classmen were in striking distance of the sub goal repeatedly.

In the last minute of play in the first half the seniors carried the ball over for a touchdown. The play was ruled illegal, however, as the seniors had more than eleven yards ahead of them at the time the play was made.

Forward Pass Used.

The seniors made some nice gains at times by resorting to the forward pass. The freshmen, however, were broken up by the seniors' defense.

In the matter of first downs, the seniors also had the better of the freshmen. The freshmen were unable to get a single first down.

On one play when the seniors had the ball on the sub's 25-yard line, the freshmen attempted to break through the seniors' line, but were repulsed.

The subs recovered nearly all of their own yardage, and the seniors were unable to get a single first down.

Stars of the Game.

For their part in the game of Montgomery, Smith, Reinhardt and Crutcher were the stars of the game.

On the defensive Crutcher was the star, repeatedly making the seniors back of the scrimmage line for a loss.

For the subs, Tigue, McNeill, Fitzgerald and Pappas did the best playing. Fitzgerald and Tigue were the stars of the game.

On the offensive Tigue was the star, repeatedly making the seniors back of the scrimmage line for a loss.

The seniors made some nice gains at times by resorting to the forward pass. The freshmen, however, were broken up by the seniors' defense.

## GREAT FINN WINNER OF X-COUNTRY RACE

Hannes Kolehmainen Shows His Heels to Classy Field in Record Time.

New York, December 12.—Hannes Kolehmainen, wearing the colors of the Irish-American Athletic club, won the national senior cross-country run of the Amateur Athletic union today over the six-mile course in 23:24, a new record for the Irish-American club.

The course is laid out over stiff hills and dales country. Among other details it includes a formidable water jump where each of the contestants got an ice cold mud bath. Kolehmainen led all the way, winning by about sixty yards from Arthur J. Fogel, of the Irish-American Athletic club, who finished thirty yards ahead of his clubmate, Thomas Barden. Fogel's time was 23:45.

George F. Holden, Y. M. C. A. Finn, was fourth. Patrick Flynn, Irish-American Athletic club, fifth, and Stanley Root, Mercury Athletic club, Philadelphia, sixth.

The team prize was won by the Irish-American Athletic club with 21 points. The New York Athletic club was second with 14, and the Philadelphia Athletic club, Philadelphia, was third, with 10 points. There were twenty-two starters.

WALTER LOCKE WINS BIRMINGHAM RACE

Atlanta Athletic Club Star Captured Cross-Country Run on Saturday.

Birmingham, Ala., December 12.—Walter Locke, representing the Atlanta Athletic club, won the annual cross-country race of the Birmingham Athletic club here today. Vivian Jones, of the Birmingham Athletic club, was second.

Walter Locke is fast coming to the front as a cross-country runner, and Atlanta and the south can justly feel proud of him.

This is his first effort outside of Atlanta. He has won several other races of the Atlanta Athletic club for the past few months.

**J. P. ALLEN & COMPANY****Our Great December Half-Price Sale  
of Suits and Dresses****Begins Tomorrow, December 14th**

In many ways this is an unusual season. Fitting in with the universal economy plan, almost everyone is going to make gifts of importance this Christmas--something to wear--something that means something--the gift that covers a need while it compliments. What is more generally acceptable than a handsome tailored suit, or a pretty frock--as a gift--and to wear at Christmas time? What is more opportune than buying these all this week at half price? Though our prices on suits and dresses continue at half throughout the month, the early purchase gets your choice. Just now there are plenty of blacks and blues. It is well known they go first.

**J. P. ALLEN & CO.** **51-53  
Whitehall**

A black and white photograph of a woman in profile, looking to the right. She has dark, wavy hair and is wearing a dark, textured garment. The background is dark and textured.

## A black and white photograph of a group of nine people, likely a family, posed in two rows. The back row consists of three men standing, and the front row consists of six women seated or kneeling. They are all dressed in formal attire typical of the early 20th century. The photograph is framed by a decorative border.

**"Seven Keys to Baldplate."**  
(At the Atlanta.) George M. Cohan's galloping farce based on East Derr Biggers' novel, which will be seen at the Atlanta Thursday, Friday and Saturday with a Saturday matinee, is Cohan at his best. He has constructed something entirely different in stage offerings, a farce with tense, dramatic moments and without horseplay. In fact, the audience is the one upon whom the joke is played. Cohan has achieved a new height in his career.

with one of his peculiar gifts—drawing characters so true to life that they have a chance of immortality. And this through the medium of a farce! Until Cohan brought his genius and his stagecraft to bear, shuddery melodramatic situations have never been allowed to work in harmony with gales of laughter. It is the very best of what "Seven Keys to Baldpate" exemplifies.

The story of the play is so clever that to tell it in detail would detract from the enjoyment of witnessing the play. Suffice it to say, it concerns an author, "beat seller," who makes a wager of \$5,000 with the New York owner of Baldwin Inn, that he can

epilogue. The word ending is would be telling too great a secret.

"Seven Keys to Success" is one of the greatest successes of the stage today. It played for over a year to capacity audiences at the Gaiety theater, New York, and for six months at Cohan's opera house, Chicago. The original cast and production will be here housed in the company, are such sterling players as: Cyril Scott, John O'Hara, Lee Stretett, William L. Gibson, Spencer Charters, Walter D. Greene, Frank Monroe, J. Hooker Wright, Ethel Intropidi, Christine May, Roy Harlan, Jean Sheel, Laura Bennett, Fannie Mackey and others.

Seats on sale Monday.

**Maude Adams.**  
(At The Atlanta.)  
Charles Frohman will present Maude Adams in a double bill, consisting of "The Legend of Leonora" and "The Ladies' Shakespeare," at the Atlanta, Monday, for three days and Wednesday matinee. There is always a desire on the part of the public to see Miss Adams and the desire in the present instance is made more keen by the alluring qualities of her new Harrie plays.

which the bill-opener "The Legend of Leonaora." This is the first long work from the pen of Barrie since "What the Fourth of July Knows." It has been running in London and New York, and it has won lavish praise while in the hands of Miss Adams. "The Legend of Leonaora" is a subtle and delicate comedy. But it also is a tribute to it, a type rapidly going out of style. While it is a comedy, it is not a comedy of the type which has been the style of play of the times as zenith is from the nadir. Frankly, it is a piece of whimsicality. The question as to whether it is a comedy or not is beside the matter, for, as she is unfolded, she is undeniably human and lovable. She has the maternal instinct; she commiserates with the orphan, the orphanish, spoiled, coquette—the eternal

feminine you, without half trying, can twist men around her finger. Her second protest is enough to get her riding in the same compartment of the train as she persists in keeping the window open, although she persists that her little girl has a cold. After the second protest she calmly pushes him off the train. This is where she is introduced to the audience in the first act. It is at a dinner party that she is first seen. The guest of honor is and she is to meet seven women and each of these is attributed to him. After chatting a while with Leonora, the man discovers that she is all seven women and ever so many more rolled into one. Of course, Leo-

In the court Leonora, as usual, wins all hearts, judge, jury and attorneys. All try to save her from herself and even her enemies are so kind that she told an untruth with a straight face. She killed a man. She simply might have done it. Leonora herself feels no regrets for her action, for she is sure she was within her rights in protecting the head of her child. The jury acquits her and triumphant she goes in the arm of the judge, she leaves the court after thanking everybody concerned. The three acts of the play are effective.

very staged.  
"The Ladies" Shakespeare, with which the bill concludes, is announced as "being one woman's reading of a notorious work called 'The Taming of the Shrew.'" M. Barrie, it is in one act and contains the elaborate scenes. The work is said to be delightful and Barrie has made it appear with a new cast. The play is the original play that it is Petruccio, and not Katherine, who is tamed. The play is for a large cast. The spirit of the old comedy is retained. The company surrounding Miss Adams is made up of prominent players.

**"Green Stockings."**  
(At the Atlanta.)  
For Christmas day the Atlanta has secured an unusually strong and AB-

LaGrange, Ga., December 12.—(Special.)—Edwin Cumbee, the son of Mr. and Mrs. Edwin Cumbee, of West Point, was accidentally shot with a pistol in the hands of his brother, Frank Lewis, Thursday night about 6 o'clock. The two boys, in the absence of their parents who were just returning home when the pistol shot was heard, had been playing with a pistol. Frank Lewis was trying to place a cartridge into the pistol when it was discharged, the bullet entering the neck of Edwin and ranging upward, lodging in his chest. The wound, while a painful one, is not considered dangerous.

**A Poor Prop.**  
(From Judge.)  
"Do you think he's able to support a wife?"  
"Why, he can't even maintain a conversation!"

In his search for food the vulture is never guided by the sense of smell, but relies upon the sight.

"The Crisis," in song and story, presented by Alber's Musical octette, will be the next number on the Alkahest lyceum course at the Auditorium next Tuesday evening. This promises to be one of the most attractive numbers of

The program will be divided into three parts: first, the ante-bellum days; second, war songs; and third, modern music. Each of these parts will be made up of the three parts of the program.

The company is composed of nineteen members, including the following quartet and a pianist. Following is the personnel:

Miss Annette Wheat, first soprano; Miss Mary Wilson Burns, second soprano; Miss Clara Irene Gray, first alto; Miss Mary Wilson Burns, second alto; Mr. Hugh Aspinwall, first tenor; Mr. Wendell P. Loveless, second tenor; Mr. Wendell P. Loveless, first baritone; Gustave Spaeth, bass, and Mr. Victor

This attraction is better known as The Bluebird song company, and their performance has been received with great enthusiasm wherever they have appeared on this tour of the north as well as of the south.

Quartet singing is one of the most popular forms of music, and in this company you have not only a male and female quartet, but a double mixed quartet.

It is expected that one of the largest audiences of the season will fill the Auditorium next Tuesday evening to enjoy this splendid program.

### NEGRO FORGER IS LANDED IN JAIL

LaGrange, Ga., December 12.—(Special.)—A negro signing his name as Jim Jones, but who in reality was Henry Robinson, presented a forged check at the First National bank of West Point Thursday for \$16. It was made payable to one of West Point's prominent business men and was payable to another well known citizen. The endorsement was also a forgery. A few questions propounded by Cashier Harvey Fleming frightened the negro and prompted him to flee. He was pursued by the police a hot race. He was captured and placed in the Troup county jail where he now awaits his trial on a charge of forgery.

**Pythian Officers.**  
LaGrange, Ga., December 12.—(Special.)—The following officers were elected to be installed January first at lodge No. 21, Knights of Pythias, of West Point: Messrs. Anderson Smith, W. C. Hudmon, Howell Barrow, W. E.

## Has a Cure For Pellagra

Farrie Nicholas, Laurel, Miss., writes: "Seems to me if I had not obtained your remedy when I did I would not have lived much longer. I am glad you discovered this wonderful remedy that will cure Pellagra. When I began taking Wright's Pellagra Remedy my weight was 60-odd pounds; now it is 90-odd. I would like to have this published and sent to sufferers of Pel-

you suffer from Pellagra or know of anyone who suffers from Pellagra it is your duty to consult the resourceful Baughn, who has fought and conquered the dreaded malady right in the Pellagra belt.

The symptoms—hands red like sunburn, skin peeling off; sore mouth, lips, throat and tongue a flaming red with much mucous and choking; indigestion and nausea; either diarrhoea or constipation.

There is hope if you have Pellagra: you can be cured by Baughn's Pellagra Remedy. Get a big free book on "Pellagra" from the Commercial Chemical Co., Box 3033, Jasper, Ala. Remembering money is refunded in any case.

## Gridiron Boys and Guests Liven Banquet With Jest

Owing to War, Skits Were  
Confined Within Shore  
Lines of the Oceans That  
Bound the Americas.

Washington, December 12.—Members of the cabinet, congressmen, diplomats and leaders of all activities of the nation's life gathered round the board here tonight at the Gridiron club's winter dinner.

President Wilson's earnest injunction to the American people to refrain from public discussion of war issues was strictly regarded and the location of every one of the many satires and dramatic skits was always within the shore lines of the two oceans which bound the Americas.

Uncle Sam's words were given full opportunity to air their grievances, for the most part in song in a gathering described as "Uncle Sam's Jubilee."

The negro complained of the workings of the civil service law which "has sentenced more good colored voters to the levees and cotton fields than any other pernicious legislation."

There was an old delegate, his name was Uncle Ned. He lived long ago, long ago. He went to conventions whenever he was bid. And that's how he lived, long ago.

Chorus:  
Then lay down the shovel and the hoe,  
And hang up the fiddle and the bow.  
There's no more work for poor Uncle Ned.

The pianists laid him low.  
Farmer Wanted Bush of Greenbacks.  
The farmer was another word for a complaint; he wanted a bush of greenbacks. Up home he had a shed full of squashes and wanted the treasury to issue circulating notes on them.

Two other words were Colonel Waterman and Colonel Harvey. They had no grievances, but expressed their contentment in a song, the refrain of which was:

"I've come back, come back,  
I've come back, dear leader, to thee,  
I've come back, come back,  
I've come back, dear leader, to thee."

Among other words, Alaska wanted to be shielded from exploitation of

Medal for Dr. Naon.

New York, December 12.—Presentation of a gold medal to Dr. Ronald S. Naon, president of the American Association of Ophthalmologists, was made at the annual dinner of the Pennsylvania Society here tonight.

Governor Edwin S. Stuart, of Pennsylvania, presenting the medal, alluded to Dr. Naon as the diplomat, "who in the past has been on behalf of the government, has sought to define the rights of neutral nations in principle of right and justice."

## IMMIGRANTS SOUGHT FOR SOUTHERN FARMS

Legislation Is Asked by the  
Federal Government and  
by the States.

Washington, December 12.—Resolutions calling on the federal government and the southern states for legislation to care for immigrants who seek refuge in this country after the European war were adopted tonight by the Immigration and Naturalization Service.

The committee was appointed to work out some practical plan of action. Dr. Clarence J. Owens, managing director of the Southern Commercial Congress, declared in an address that the future development of the south was measured in terms of an efficient industrial and agricultural immigration.

At the afternoon session of the committee many of the destitute immigrants who would come to the United States from Europe after the war could be placed on the southern farms. The committee was asked to consider the feasibility of distributing immigrants on farms in the south.

## Spectacular Fire at Cable Piano Company Came Near Destroying Christmas Tree

Beautiful Christmas Tree at Cable Piano Co.

It takes beautiful decorations, artistically arranged, to give a real attractive holiday window display.

But it doesn't take a farthing of labor more than two moments to bring ruin to your artistic efforts and create a most spectacular fire.

That's what happened at the Cable Piano company Friday afternoon, when an earthquake harmless and perfectly well-meaning, photographer dropped into the big cable company to make a picture of one of the country's Christmas trees so far arranged by an Atlanta house.

Just back of the big display window. In the main floor, Manager William Browne had arranged a beautiful tree.

For two or three years this pretty little pine had weathered the storms in the forest, but the cable company had now draped it with beautiful tinsel, and entwined around its tapering limbs were wrapped yard after yard of flashy red and green crepe paper, hidden and gently glowing beneath its myriads of green needles, hundreds of electric lights played hide and seek.

To make the picture more complete, the big pine had placed on it and around its base a number of costly musical instruments, musical boxes, sheet music—in fact, it was literally covered with goods out of stock from the Cable Piano company.

Boston Author Visits Georgia

Thomson, Ga., December 12.—(Special.)—Among the winter visitors in Thomson, Ga., today is Mr. J. H. Thomson, author of "The Letters of Jennie Allen," which brought him much flattering notice.

Bishop Nelson at Lagrange Today

LaGrange, Ga., December 12.—(Special.)—Bishop C. K. Nelson, of the diocese of Atlanta, will be in LaGrange today, on his way to the annual conference of the Georgia Synod of the Methodist Episcopal Church, which will be held at the city of LaGrange.

Lighter Ships Left in Mexican Waters

Washington, December 12.—(Patrol.)—The lighter ships of the United States Navy, which were sent to the Gulf of Mexico to patrol the waters of the Gulf of Mexico, have been ordered to leave the Gulf of Mexico and return to the United States.

W. E. Chandler, Waycross

Waycross, Ga., December 12.—(Special.)—The funeral of Mr. W. E. Chandler, who died suddenly at his home in Waycross, Ga., this morning, was held at the city of Waycross.

Water from King Solomon's sealed fountain is being shipped through the streets of Jerusalem.

The sale of roses for charity on the part of the Kings of London realized more than \$100,000.

Diseases of Men

Cured Completely

The use of the microscope and other agents of latest development in medicine science renders it possible to discover what particular germ is causing any certain disease and so makes the treatment of that disease a definite matter, instead of a mere guess, as it is in the case of many diseases.

It is in the nature of the disease that it is free and strictly confidential, and no name or sign appears on the door to indicate the nature of the disease. In every way privacy is insured. For such diseases as Chronic Venereal Catarrh, Various Discharges, Bad Blood Discharge, Stricture, etc.

Take elevator to fourth floor, Kimball Hotel, and come to Room 414. Hours: 9:30 a. m. to 12:30, and 1:30 p. m. to 9:30 p. m.; or you can make special appointment by letter. Kimball Hotel, Room 414. DR. FONTIUS.

## AUTO MAKERS EXPECT BIG SPRING BUSINESS

Many Requests for Allowments  
of Cars Have Already  
Been Received.

Automobile manufacturers and dealers are preparing for a demand next spring that will fully sustain the pace set by the spring selling seasons of recent years.

Sales managers and distributors of the various makes of automobiles are preparing for a demand next spring that will fully sustain the pace set by the spring selling seasons of recent years.

Following the usual experience of the trade, the first firm days of next spring will remind the prospects by the thousands that they want cars.

Distributors and dealers have been asked for orders for the spring season. The country are even now placing their orders for shipment from the distributors and dealers have to pay for the cars at the time of purchase.

The cars are stored at the points of delivery, awaiting the spring season. It is a distinct mark of the substantial foundation and healthy tone of the automobile business that distributors and dealers are preparing for a demand next spring that will fully sustain the pace set by the spring selling seasons of recent years.

The demand in early years to look ahead to the spring season. The cars are stored at the points of delivery, awaiting the spring season. It is a distinct mark of the substantial foundation and healthy tone of the automobile business that distributors and dealers are preparing for a demand next spring that will fully sustain the pace set by the spring selling seasons of recent years.

With the new two ton touring car, the business will go the same way as the automobile business. The cars are stored at the points of delivery, awaiting the spring season. It is a distinct mark of the substantial foundation and healthy tone of the automobile business that distributors and dealers are preparing for a demand next spring that will fully sustain the pace set by the spring selling seasons of recent years.

Active Campaign Already Begun by Representative of Chandler Car.

With glaring headlines in every trade and newspaper advising American business firms to go South American business, the Chandler Motor Car company, through the efforts of its export manager, Mr. S. H. Mead, has already commenced an active campaign to secure the export of its automobiles to the southern continent.

Going first to Rio de Janeiro, Mr. Mead has personally sold cars. He has secured orders for the sale of cars in Porto Rico and other islands. Several orders have already been received for South America and has spent a good portion of the past month in Venezuela.

Mr. Mead has established at least one record on his trip to South America. In only one month he has secured orders for the sale of cars in Porto Rico and other islands. Several orders have already been received for South America and has spent a good portion of the past month in Venezuela.

## New Vacuum Gasoline System Season's Biggest Innovation

USES BOTTLE TO BRING  
AUTO OVER A MOUNTAIN

Unique Expedient Adopted by  
Driver in Interior of the  
"Golden State."

Bringing up an automobile on a bottle is the feat recently performed by a part of a great corporation in trying to put this economical feature into the automobile season. The same as the electric start was credited as the big success of the 1913 season, this invention, which is a simple control of gasoline, has already proved its superiority in many ways.

Exhaustive tests conducted with a new Model Buick 55-C on the Indianapolis motor speedway a few days ago being the clincher to all arguments of the superiority of the vacuum system over pressure feed.

In the tests conducted under sanction of the A. A. A., both on the Indianapolis motor speedway and rough, muddy highways, the vacuum system showed a 12.5 per cent increase in mileage efficiency over pressure feed systems.

Technical Engineers E. E. Edwards of the A. A. A. and Chester Ricker of the Indianapolis motor speedway, sent the Buick over the speedway course at 25 miles an hour on the highway at 25 miles an hour. The temperature all day was low, the weather was raining. No more ideal conditions for running tests over presented themselves to the A. A. A. for real efficiency.

Used by Many Cars.  
Unheard of a year ago, the Stewart vacuum system is now found on 25 to 30 per cent of all cars manufactured today. Such concerns as Buick, Peerless, Overland Six, Haynes, Cole, Jeffery, Kissel, Vaux, and others, are among the manufacturers which have contracted for the Stewart vacuum system as regular equipment.

The phenomenal records that the system has made under the supervision of the A. A. A. is responsible for the very real Stewart vacuum system has made. The system is now found on 25 to 30 per cent of all cars manufactured today.

Technical Engineers E. E. Edwards of the A. A. A. and Chester Ricker of the Indianapolis motor speedway, sent the Buick over the speedway course at 25 miles an hour on the highway at 25 miles an hour. The temperature all day was low, the weather was raining. No more ideal conditions for running tests over presented themselves to the A. A. A. for real efficiency.

Used by Many Cars.  
Unheard of a year ago, the Stewart vacuum system is now found on 25 to 30 per cent of all cars manufactured today. Such concerns as Buick, Peerless, Overland Six, Haynes, Cole, Jeffery, Kissel, Vaux, and others, are among the manufacturers which have contracted for the Stewart vacuum system as regular equipment.

The phenomenal records that the system has made under the supervision of the A. A. A. is responsible for the very real Stewart vacuum system has made. The system is now found on 25 to 30 per cent of all cars manufactured today.

## Richman Tells How To Prevent Radiator Becoming an Ice Box

One of the things of prime importance to the motor car driver is that his radiator should not freeze. If it does, the car will be a useless piece of machinery. To prevent this, the radiator should be kept covered, the water should be changed, and the radiator should be kept clean.

Winter is coming on, and Mr. Motorist is liable to wake up some fine morning and find that his radiator has turned into an icebox during the night. To be on the safe side, Mr. Motorist should take some steps to prevent this.

Winter is coming on, and Mr. Motorist is liable to wake up some fine morning and find that his radiator has turned into an icebox during the night. To be on the safe side, Mr. Motorist should take some steps to prevent this.

THIS HUDSON CAR  
FOR BUSINESS MEN

THE 1915 model of the always popular Hudson Convertible Roadster—or Cabriolet—has a seating capacity of three. Everything that made last year's car so welcome is found in added completeness. Mechanically the car shows 31 improvements and advances. The top folds readily and compactly. The windows drop when desired. With top up it is an entire, closed coupe. With top folded it becomes a standard roadster. Two distinct cars in one. The upholstery is in solid leather, over oil-tempered springs and genuine curled hair.

We especially invite the attention of business men and physicians to this delightfully designed car

## HUPP CAR BEING USED BY RED CROSS CORPS

When the Australian expeditionary force left Melbourne to join the allies in Europe, a model Hupmobile accompanied the Red Cross corps as a special field ambulance. This ambulance corps, which is known as the Light Horse brigade, has among its officers some of the best known doctors and surgeons in Melbourne.

Just before leaving for Europe, Dr. Stanley Argyle, who is one of the best known doctors in Australia, testified that the usefulness of the Hupmobile as a field ambulance was due to its simplicity of its equipment. He then compared the Hupmobile with the other ambulances in the field.

Dr. Argyle, who is one of the best known doctors in Australia, testified that the usefulness of the Hupmobile as a field ambulance was due to its simplicity of its equipment. He then compared the Hupmobile with the other ambulances in the field.

# The New REO The Fifth

## The Incomparable Four

# \$1050.

### The New Reo The Fifth—"The Four"

WHAT NEED WE ADD to what you already know of this great car? For of course you do know. If you have not owned one, you have many friends who do. And they have doubtless told you in more extravagant terms than we would care to use.

MORE THAN 40,000 of them are today in hands of users: 12,000 were sold last season.

AND AS PROVING the popularity of this model we need only say that on November 10th the last Touring Car left the Reo factory. And that for thirty days at least there has not been, so far as we know, a Reo the Fifth on any Dealer's sales-floor anywhere.

THE PROOF OF QUALITY in any product is "will it sell in the off-season?" Autumn is supposed to be the off-season for motor cars. Not for Reo cars though—we have never known a time when, even with our splendid factory facilities, we were able to make enough Reos to supply the demand.

WE HAVE JUST INCREASED our plants nearly 50 per cent—necessary to produce the new "Six." And we hope to be able to more nearly supply our dealers this year than formerly.

AS WE HAVE NO AMBITION, however, to be maker of the most automobiles, but of the best, we do not expect, ever, to supply all the demand for Reo cars. That would be our idea of—well the reverse of success.

TO MAKE THEM EVER BETTER—so much better that, always, the demand will beckon the supply—that is our desire.

FOUR YEARS AGO we announced that, after more than 23 years of experimenting—testing—proving—we had produced a chassis that we believed was finality in all essentials of design. And we said so.

SOME FRIENDLY RIVALS laughed at that statement—said that changes would continue to come with the seasons—as they always had.

NEVERTHELESS WE WERE CERTAIN in our own minds that, in the three-unit power plant and in other features that have become known as peculiarly Reo, we had established principles that would not change—so long at least as the principles of gas engines remained as they were.

IMPROVEMENTS? REFINEMENTS? of course—but only in minor details. The world moves and of course we expect to move with it. Reo has from the first been in the van—we mean to stay there.

BUT IN THE FUNDAMENTALS of a self-propelled pleasure car, we were convinced we were right. Events have only served to confirm us in that belief. Reo the Fifth is today, in all essentials, the same as then—and it is still the leader in its price class.

FROM SEASON TO SEASON we have made such improvements as the progress of the science has made possible. And as our facilities have increased and our purchasing ability become greater, we have from time to time reduced the price of Reo cars at the same time that we have increased the quality and the value.

IN THE CASE OF THIS FOUR we have been able to do two things we had considered impossible—we have made a bigger, at the same time we have made a still better car.

READ THAT AGAIN—MULL IT OVER—sense the significance of the statement—a larger, more luxurious car—refined and improved at every point where refinement or improvement was possible—and at a lesser price!

HOW WAS THAT POSSIBLE? you ask. Tell you—

THE MOTOR PROVED to have more power than was necessary—more than was really desirable for the weight of the car. Refinements, recently made, increased that power still more.

SO WE FOUND we could add three and one-half very desirable inches to the length of the car, give the buyer a more luxurious equipment, and yet have a car of ample power.

THAT DIFFERENCE IN LENGTH—and we made it wider at the same time—makes all the difference in the world in the capacity and the comfort of the car. It gives a full door—without having to cut the corners to let the wheel-house in.

OTHER NOTICEABLE IMPROVEMENTS—in a car which formerly seemed almost perfect—are:

IMPROVED UPHOLSTERING—higher backs to seats. Extremely low-back fed is wanting. Now back to comfort.

IMPROVED WINDSHIELD support—with braces running from cowl to body sill—secret of success of "One-Man Top."

POCKETS in all doors.

INSTRUMENTS mounted flush on instrument board.

HOOD FASTENERS—new and improved type. Stay put—and unfasten readily when you want them to.

ENTIRELY NEW TOP—a real one-man top. Can actually be put up or down by one man—after long use as well as when new. Secret is in the secure attachment mentioned above.

WINDSHIELD—Oval moulding and pressed steel construction throughout. New method of fastening—and top attaches direct to and is immovably supported by windshield.

Reo The Fifth Roadster \$1000

Reo The Fifth Coupe \$1175

## Reo Purchasing Power Made

### A Condition That Was To Others, Proved To B

WE PROMPTLY TOOK, and are giving you—full advantage of it.

READ CAREFULLY—It's the Silver Lining to the War-Cloud.

YOU ARE OF COURSE AWARE that the Reo Motor Car Company is financially the second strongest Automobile concern in the world.

OR WEREN'T YOU?—We had supposed that knowledge was common property. Anyway, you can easily ascertain the truth of the assertion.

WE WOULDN'T MENTION IT HERE—never have before—but it is necessary to state the fact in order to explain something that is otherwise unexplainable—the wonderful values we are able to give in the two Reo models shown and priced above.

FOR "WONDERFUL VALUES" is the only term that expresses it. Think of it!—The New Reo the Fifth—that incomparable four, improved at many points and a larger car than its immediate predecessor—and at \$125.00 less than last season.

AND THE SENSATIONAL REO SIX—A six designed and made the Reo way with the Reo guarantee at the amazing price of—\$1385!

THAT CALLS FOR EXPLANATION, for you nor anybody else dreamed it would ever be possible to produce such cars at such prices.

SO SURE WERE WE OURSELVES of that, we went so far as to state in an advertisement a year ago "no maker ever can—not even Reo ever can give greater value than this"—speaking then of Reo the Fifth at \$1175.

YOU RECALL THE STATEMENT doubtless—so when you saw the price, \$1050, quoted above—and realized also that this latest Reo the Fifth is a larger and an improved car, you wondered.

WELL HERE'S THE ANSWER—and it's mightily interesting.

THE GREAT EUROPEAN WAR has created two sets of conditions—contradictory in some aspects.

FOR EXAMPLE, while we know that Six Hundred Millions of dollars go into American banks every thirty days—a guarantee of prosper and of a market for automobiles in the coming months—at the same time you know that banks are most conservative about loaning out. And that is as it should be. Safety First. AND SO YOU KNOW, if you stop to think about it—that many manufacturers, of automobiles and of other commodities, who were financially sound but who lacked a large surplus of cash, found it impossible to borrow during the past few months. These were necessarily limited in their capacity to their own funds.

AND THAT WAS WHERE REO, with an enviable financial position—having the money in cash, and controlled, not by absent shareholders but by men who daily direct the Reo destinies—was able to avail itself of the condition that then existed.

TO BUY WHEN OTHERS WERE EAGER TO SELL—and when there was practically no competition in the buying market—

TO MAKE MORE CARS at a time when manufacturers must perform curtail—and to have them ready for our dealers and customers when the demand will be heaviest.

NO ONE COULD HAVE FORESEEN the condition that had arisen. The best authorities on world affairs did not anticipate the war. At the time when we said "this is the best value it will ever be possible for us to give we had in mind of course the normal conditions that then existed. Those conditions changed over night.

WHY A FEW MONTHS AGO, if a manufacturer wanted a few thousand tons of steel, of special kind, he had to go to the mills, please—and wait his turn.

THEN THE WAR—The doubt, the uncertainty—stagnation for a time.

THEN IF IT BECAME KNOWN there was an order for steel in sight we found, figurative speaking, representatives of twenty steel mills camping on the steps of a morning, waiting say please to the purchasing agent.

## REO MOTOR C

### LANSING, MI

## AUGUSTA'S SOCIAL SIDE

Augusta, Ga. December 12.—(Special Correspondence).—The Woman's club meeting held at the Albion Friday afternoon, was the best attended, and very many pronounced the most interesting yet. The meeting the club has met enjoyed in. In the program President, Mrs. W. M. Benton, the first Vice president, Mrs. W. B. White, presided.

were rendered and some of the fashionable dances were demonstrated by Mr. Lombard Brinson and Misses Mary and Elizabeth Brinson.

Mr. and Mrs. Howard Jarman of Lin. Md. are visiting Mr. and Mrs. J. H. Brinson.

Judge W. T. Branley, of Washington, D. C. is visiting Mrs. Mary Lou Cook.

Mrs. R. A. Halteron was coming

The new program carried out and the work accomplished.

The meetings of the department of music and art on the first Friday afternoon following the regular club meetings on Friday, are beginning to rival the Woman's club meetings in popularity. Last Saturday afternoon a brilliant program was rendered as follows:

Thursday for the Wright-Jones family, at which Dr. Jones officiated, and Mrs. C. Worthington gave up their winter home at Howell.

Mrs. Bert F. Tull has returned from Atlanta, where she enjoyed a pleasant visit to her parents, Mr. George Tull and Mrs. Hansen.

The Woman's club held a bazaar at the MaGath building, Thursday, Jan. 10, and Saturday of last week, for the benefit of the library, and quite a large sum was realized. The proceeds were all turned over to the library. The work of the library was well filled this year with a number of fine articles suitable for Christmas gifts. Fresh home-made candies

Miss Marian Fleming, who was the soloist in the paper on Art—Miss Charles Carr, Duo, concerto in C Minor, second movement (MacDowell)—Miss Holmquist, piano solo in Kon. "Star of Descending Nine Chorus." Miss Pleasant Stovall was the guest of honor at a delightful afternoon tea given Saturday afternoon by Mrs. John

In connection with the bazaar, an interesting feature of Thursday evening was the singing of the "Soldier's Chorus" on by some of the children. The program Friday evening an old-fashioned corn pulling was given at the Covington cafe.

Mrs. Albert G. Hatch was the first to be announced the marriage of their daughter, Miss Helen Hatch, and Mr. Arthur Almond, of Conyngha, Ga., which occurred at the Methodist parsonage on Monday. Mrs. Almond is the eldest daughter of Mrs. Hatch, and the most cordial friend of the church.

Dr. and Mrs. Seved were in New Orleans, La., on Monday, December 15, at 2:30 o'clock, and returned to the city of New Orleans, La., on Tuesday, December 16, at 1:30 o'clock. The subject for discussion is "Shakespeare's Much Ado About Nothing." Miss Lartelle Meador was hostess to the members of the I. H. R. C. club Friday evening at her home on Maple cella street. Sandwiches and hot coffee were served.

son of honor, and the groom's best man, Mr. Julius Sanford, of Greenville, C.  
Mrs. Charles Pressley and Miss Mar-  
garet Pressley are with Mr. and Mrs.  
Tom Barrett.  
Mrs. Harrington Butt is with Mrs. Tom  
Barrett for a short visit.  
Miss Victoria Owen and little Miss  
Victoria Ostlin will leave on Friday.

with Mr. and Mrs. Theodore  
Miss Rose Operato, of New Orleans,  
is gone to visit in Savannah after a  
week's stay, as the guest of Mrs.  
Joseph O'Dowd.  
Mrs. P. A. Stovall has returned to her  
home in Savannah.  
Miss Louise Kallock has returned to  
her home in Savannah.

Mr. E. B. Baxter and her daughter, Misses Jack and Vera Baxter, have returned from a visit to Colonel William Leppard in Columbus.

Mrs. Thomas of Augusta, and Mrs. Charles Johnston and two children will be the guests of Mrs. M. L. Johnston of Macon, for the holidays.

Mrs. C. B. Hall has returned from

At Mrs. T. C. Jowitt's home on Greene street, Wednesday evening, a "cotton pickin'" was enjoyed by a number of guests. Delightful musical selections were given by Mrs. Jowitt, Mr. and Mrs. Terrell have a large circle of friends through the state and in Florida will be interested in the announcement of their marriage.

# The REO SIX *The Six of Sixty Superiorities*

**\$1385.**

## These Wonderful Values Possible an Insurmountable Obstacle Reo's Golden Opportunity

THAT CONDITION was of the moment only—but it existed. And only because we were alert and able to take instant advantage of it are we now able to give you the unprecedented—the unexpected—the un hoped-for values we announce in this ad.

WE HAD THE CASH—our own, to use on the instant without let or hindrance from anyone. We could declare another dividend—or invest it to vastly greater advantage in the future of Reo. We chose the latter course.

SO WE BOUGHT, and, paying the cash when cash was at a premium, bought right. Bought better than we had ever hoped—secured quality at prices theretofore impossible. From tires to electric starters—steel to leather—and hair—and paint.

DID SPACE PERMIT we would like to enumerate many points where we have been able to incorporate value heretofore impossible.

ONE MUST SUFFICE. Among the "Sixty Superiorities" you'll notice—and you'll be surprised to find—"worm bevel driving gears" in this \$1385 Six.

NOW THINK BACK and you'll recall that a year ago "worm bevel gears" were loudly emphasized as a feature of \$5000 cars.

A CERTAIN CONCERN owns the patents on the only practical machines for generating this type of gears. Their capacity had been spoken for by European automobile makers. Our engineers wanted them. We tried to buy—impossible.

THEN THE WAR BROKE OUT. European factories practically closed. Our opportunity again—cabled for options. Got them—and the machines.

AND NOW YOU WHO BUY THIS REO SIX obtain this desirable feature—one you have coveted to buy but considered unattainable at any price you could afford to pay.

THE WAR IS BENEFICIAL to those American manufacturers who, like Reo, are alert to take advantage of it.

AND SO WE HAVE NO APOLOGIES to make even to those friends to whom we sold 12,000 Reos last season. Nor for a statement that we made in the best of faith—and must now contradict in the same good faith.

FOR IN GIVING OUR CUSTOMERS the full benefit of the Reo purchasing power—instead of retaining the former price and taking the additional profit ourselves—we are only carrying out that policy which, adhered to from the first, has placed the Reo Motor Car Company in the splendid position it occupies today.

SPEAKING OF POLICY—let us correct an impression that we know is abroad.

OUR FRIENDS CRITICIZE US at times for what they call our "ultra-conservatism."

ABOUT THE ONLY COMPLAINT we ever hear from Reo dealers is that we are too modest in setting forth the merits of the Reo product.

WELL, PERHAPS THAT IS TRUE—if adherence to the strict truth in our ads; if a determination not to be carried away by the mania for mere quantities; if we prefer to be second in numbers of cars produced that we may be first in quality—if these be indications of "ultra-conservatism"—why then we plead guilty.

BUT OUR FRIENDLY CRITICS must concede that that Conservative Reo policy has produced tremendous results. Note the statement in the third paragraph of this ad.

WE DON'T CALL IT that, however. We call it conservatism militant. Aggressive conservatism. Alert conservatism. Being sure—absolutely sure—we are right, then going ahead unflatteringly—irresistibly.

DOESN'T THE VERY FACT that we were financially able to and did take advantage of a condition that we knew was transitory; and the further fact that, having bought better, we instantly offered the better values to Reo buyers—doesn't that look like "militant" rather than "ultra"—conservatism?

WE THINK SO—and so we leave the case in your hands.

### The Six of "Sixty Superiorities"

THIS SIX IS SENSATIONAL not because it is a six but because it is a Reo Six. FOR REO WAS NOT one of the first to embrace the "Six" idea. Reo was one of the last. REO WILL NEVER BE one of the first to adopt any innovation—any new—any unproven idea. For our policy has ever been, not to sell ideas—innovations—but automobiles. Dependable automobiles.

AND YOU WILL ALWAYS find Reo "trailing" to just that extent. We will never be one of those to "take a chance"—with our customers' money.

NOT UNTIL EVERY uncertain or unknown quantity has become a certainty will any new type of car or motor or axle or part be offered with the Reo name-plate.

SO YOU CAN ALWAYS BE SURE—as you have in the past—that in buying a Reo you are investing in no experiment.

THIS SIX IS THE RIPEST result of Reo engineering experience. The very fact that we make and offer it to you is evidence that the "Six" idea has now passed the realm of uncertainty. AND FURTHER, let us assure you that, every one of the sixty points of superiority enumerated below have been tried—proven—in fact, helped make the fame of Reo the Fifth—the Four that has set the pace for several years and is today setting it faster than ever.

#### THE "SIXTY SUPERIORITIES":

- (1) FLAT TUBE RADIATOR—won't leak through freezing. Flat tubes expand—don't fracture under pressure of frost.
- (2) RADIATOR DESIGN—an asset because the sloping, curved vane and graceful contour give class to the entire car. Costs more—worth it.
- (3) STREAMLINE HUB CAPS—protect bearing from dust, keep oil in. Removed with small screw-driver—original with Reo. Will be widely copied.
- (4) EXTRA HEAVY, one-piece, forged front axle—50 per cent over-size.
- (5) TIMKEN BEARINGS (4) in front hubs.
- (6) REO CYLINDER DESIGN—guarantees straight cylinders, uniformity of wear jackets. No distorted cylinders—no scored pistons.
- (7) SAFETY—FIRST—and sure—sailing system.
- (8) THREE-PIECE piston rings—more power—quicker acceleration.
- (9) FIFTY PER CENT over-size crank shaft. Ever hear of a Reo crank shaft breaking? Never.
- (10) EXTRA HEAVY cam shaft—extra large cams. One reason for silence and uniformity of power in this Reo.
- (11) ECCENTRIC FAN BELT adjustment—best appreciated after you've owned the car a while.
- (12) SPIRAL HALF-TIME gears. Silent—and 50 per cent stronger.
- (13) VALVE ACTION—roller lifters. Some high priced cars still have mushroom lifters. But they also have a chauffeur to adjust them every little while!
- (14) OVERHEAD INTAKE VALVE—not exhaust—Another reason for greater power and silence.
- (15) FIBRE ROLLER tappets on intake—another "silence" feature.
- (16) VALVE ENCLOSURES—silences, and keeps them silent—see next paragraph.
- (17) BREATHER TUBE exhausts in valve enclosure—keeps parts bathed in oil spray, and—
- (18) NO OIL SPRAYED on outside of motor by breather tube, eliminates most fruitful cause of dirt accumulating.
- (19) TWO FLEXIBLE JOINTS between motor drive and generator. Most use one only.
- (20) ADJUSTABLE main crank shaft bearings. Only motor made in America in which main as well as connecting rod bearings can be adjusted without taking motor out of car. No shim. See the book.
- (21) DUAL—injector type—exhaust manifold. Perfect scavenging of cylinders—no back-fire from one to another—more power, better cooling.
- (22) WATER-HEATED intake manifold—idea borrowed from high priced foreign cars.
- (23) REO STEERING gear—different and better. Not a "talking point"—because it's so simple you can see it—but a driving convenience much prized by Reo owners. No back-slash—adjustable for wear.
- (24) DRY DISC CLUTCH—You know the superiority of this type—no tendency to drag. Saves gears, axles, tires—and the driver's temper.
- (25) THREE-UNIT power plant. Always was, always will be a Reo feature. Only excuse for Two-unit type is cheaper and easier for maker—less accessible, more expensive to owner.
- (26) FOUR UNIVERSAL JOINTS—most makers get along with one or two—also at the buyer's expense!
- (27) BRAKE AND CLUTCH control system—only one hand-lever. Both brakes lock—both double acting—both "service brakes."
- (28) REO ONE-LEVER CONTROL—simplest ever devised. Broadly covered by patents. They all cover—but they copy at a distance.
- (29) REO Gear-shift—direct connected lever—you feel the gears as if your fingers touched them. "It's a pleasure to shift gears."
- (30) REO patented locking device—impossible for two gears to mesh at once.
- (31) HYATT bearings in transmission.
- (32) "INDEX" PLATE surrounding control rod—"a novice could drive without a lesson."
- (33) FULL FLOATING rear axle—50 per cent over-size shafts.
- (34) TIMKEN bearings in rear axle—everywhere.
- (35) NEW TYPE torque-arm takes stresses that would otherwise be transmitted to delicate mechanisms. See the book.
- (36) WORM BEVEL driving gears—how we were able to incorporate this feature is told in the "story." Read it again.
- (37) CANTILEVER rear springs—most luxurious riding springs ever invented. See the book.
- (38) RIGID attachment of cantilever springs to axle—act as radius rods—keep axle in perfect alignment at all times.
- (39) REMY electric starter and lighting. Made like the car—to stay good. Always starts. Some don't, you know.
- (40) STARTER hook-up—exclusively Reo. Worm-drive—connected all the time but no wear when car is running. No shifting gears—no over-running ratchets. A lot of better features—see the book for the rest.
- (41) STARTER LEVER—handy, but unobtrusive—you touch it only when you want to.
- (42) TIRE PUMP attached to starter shaft—connected at all times. Always ready—no lifting of the hood—how carried in special compartment.
- (43) DIMMING attachments to headlights.
- (44) INSTRUMENT light and tail light connected in series—if tail light goes out pilot light warns driver.
- (45) SPECIAL tail-light switch—a little thing but most important when touring. Conforms to regulations of all states.
- (46) PRACTICALLY one-piece pressed steel cowl. Pressed steel body on wood frame—so made it can't spring "a cowl."
- (47) 6 1/2-INCH WIDEST tennons. Measure the others—measure them!
- (48) 50 PER CENT OVER-SIZE in all vital parts—the Reo factor of safety.
- (49) REO accuracy—Reo care—Reo inspection everywhere. Parts ground to absolute exactness.
- (50) 180-odd steel forgings—in many places where others think castings good enough.
- (51) REAL LEATHER upholstery—no "sewer found any substitute that was "just as good."
- (52) REAL HAIR—retains its spring as nothing else does.
- (53) REAL RUBBER and Sea Island cotton in tires—not cheesecloth and Jersey clay.
- (54) VENTILATING, rain-vision, clear-vision windshield—and attached to stay put.
- (55) CLEVER—and strong—windshield and top support—have to study in detail to fully appreciate.
- (56) GENUINE one-man top, 5-bow type—only other car using same kind sells for several hundred dollars more.
- (57) LIGHTER weight in proportion to power—result of using better materials.
- (58) EVERY PART—radiator-cap to tail-light—Reo made and Reo guaranteed.
- (59) MOST ACCESSIBLE car in the world. Attainment can be made to any unit without disturbing any other. Value in dollars to the owner is incalculable.
- (60) FINALLY—and most important to you, the Reo name-plate. This signifies that the Reo guarantee, with all it stands for in integrity and financial stability, goes with the car.

DELIVERIES will begin about January 1st. Only way to be sure of getting yours early is to order now. See your local dealer.

## BEARING REPAIRING

## The Tea Hour

**V**ERY deep mahogany chiffon velvet forms the suit on the left. Fur is the only trimming on this simple one-piece afternoon gown. The hat is of a dark shade of velvet, ornamented with uncurled ostrich feathers.

On the central figure will be found a very practical and dressy blouse to wear with

a cloth suit. It is composed of a mustard-colored chiffon velvet vest, worn over an ecru net kimono waist.

Hat of white satin, trimmed with aigrettes.

White chiffon velvet forms the tunic of the third gown, trimmed with millesime, worn with a velvet underskirt. The blue velvet hat is further enriched with ostrich feathers.

# MORTUARY

## NEW CHILD LABOR LAW SOON GOES INTO EFFECT

**Certificates Have Been Sent  
Out to the Proper Au-  
thorities.**

The blank certificates needed to put the new child labor law into effect on January 1, 1915, have been sent to the proper authorities in accordance with instructions by the department of commerce and labor.

The certificates for children dependent upon their labor for support and children of dependent widows must be signed by a commission composed of the county school superintendent, the ordinary and the head of the school where the child resides. The educational certificates must be signed by the superintendent of the county or city schools.

Under the new law no child under 14 years of age can be employed in manufacturing plant, laundry or place of amusement, which includes motion picture shows, etc., unless they can qualify as orphans of the children of dependent widows.

The new law will take out of the hands of the children who have heretofore been allowed to work. Children of dependent widows are not allowed under the new law to qualify under that clause.

The inspection work will be done by the commissioner, assistant commissioner and chief clerk, as formerly.

**Ad Men Are Lauded  
For Brilliant Work  
In Recent Carnival**

In recognition of the work and assistance rendered by the Ad Men's club, the Atlanta Chamber of Commerce, that the thanks of the club are tendered to the Atlanta Chamber of Commerce.

Resolved, that the directors of the Atlanta Chamber of Commerce, that the thanks of the club are tendered to the Atlanta Chamber of Commerce.

**FEDERAL RESERVE BANK  
MAKES WEEKLY REPORT**

Saturday evening the federal reserve bank issued its weekly statement of its condition at the close of business, Friday, December 11.

**OFFICERS ARE NAMED  
BY WOODMEN CAMP**

The greater Atlanta degree camp of the Woodmen of the World announced last night the election of officers for the year 1915.

At the meeting Dr. J. W. Simmons, of Brunswick, head advisor of the Woodmen of the World, made quite an impressive address to the members of the camp.

The following officers were elected: W. H. Pifer, of East Point camp, No. 74, junior past commander; C. H. Wright, of Atlanta camp, No. 429, council commander; R. W. Lamper, of Decatur camp, No. 10, advisor.

**DENTAL FRATERNITY  
ENJOYS FINE BANQUET**

Members and friends of Psi Omega Dental Fraternity, together with members of the faculty of the Atlanta School, were entertained at a nine-course banquet at the Georgian Terrace last Wednesday evening.

Tickets were offered as follows: Dr. H. M. Bage, "To Our Rival Fraternity," \$1.00; Dr. H. M. Bage, "To Our Prospective Members," \$1.00; Dr. H. M. Bage, "To Our Ladies," \$1.00.

**TREASURER OF GOODRICH  
COMPANY HERE ON VISIT**

Charles Becker, treasurer of the Goodrich Rubber Company, who has visited Atlanta several times, is now in the city on a business trip.

Mr. Becker is making a trip of inspection of the stores owned by his company, but always makes his stay in Atlanta a combined business and pleasure visit.

Mr. Becker is a member of Melrose Athletic Club, of Springfield, Mass., and attended the twenty-fifth anniversary ball of Yvonne Temple, on December 8, in Atlanta.

## Man Tried on Charge Of Loitering on Porch Of Own House, Freed

P. J. Donohoe, of No. 13 Williams street, was freed by Recorder George E. Johnson Saturday when arraigned before him for loitering on his own front porch.

Donohoe has been out of work for five months, according to his story to the recorder. He has been in jail for

## FAMILY ESCAPES BURNING HOUSE SCANTILY CLAD

LaGrange, Ga., December 12.—(Special.)—The home of W. A. Chastain, of North Main street, of LaGrange, was destroyed by fire Thursday night about 11 o'clock. Mr. Chastain and his family having a narrow escape from the building. The loss is estimated at \$35,000 and is covered by \$10,000 insurance.

## Is not known how the fire originated.

The fire was first discovered by W. L. Bowen, a neighbor, and at that time the house was empty and no one was in it. Mr. Bowen assisted Mr. Chastain in making the children and getting them from the burning building, all having to flee with scanty attire. Many household goods were saved from the building.

## SERMONS OF INTEREST TO MARRIED FOLK

Those in Atlanta who are married and those who contemplate marriage have been flocking for several weeks to the First Christian church, where the Rev. L. O. Bledsoe, pastor, is preaching every Sunday evening a series of sermons on "The Married People." The series consists of seven sermons, all dealing with the problems of married life. The first sermon, "The Married People," was preached last Sunday evening, the fifth in the series will be preached this Sunday.

## \$16,000 SENT FARMERS FOR SULPHUR DAMAGES

Governor John M. Shaban has signed checks aggregating \$16,000, which will be forwarded to farmers in the neighborhood of Ducktown, Tenn., just across the Georgia line, in payment of damages sustained by farm and timber lands from sulphur fumes from the plants of the Tennessee Iron and Copper company.

## These checks are being sent to the farmers.

This money is paid from a sum deposited by the mining company with the governor.

## GREETINGS

My friends of the South—my friends good and true—my heart is filled with gladness tonight as I sit before the open grate fire of my home and pen you this little Christmas message. I am so happy for I know you will all have a merry Christmas. Only a few short weeks ago, it grieved me to think how you had toiled so hard on your cotton all to no profit, but now my sadness is turned to gladness, for as I gaze into the glowing coals of the fire before me, I see written in the embers, the one word—Prosperity.

RANDOLPH ROSE.

## SANTA IS COMING SO IS CHRISTMAS

When you see Old Santa Claus way off in the distance headed from the icy North to the land of Cotton, it's a reminder that Christmas is coming.

And when you wake up Christmas morning and it's frosty and kind of wintry and chilly you'll want something to warm you and comforting-like to cheer you up.

So you better order now and the house to order from is the House of Rose. That's where old Santa fills all his orders for Dixie—always stops here on his way South and what's good enough for Santa, ought to be good enough for most of us.

## FINE CHRISTMAS PRESENT FOR YOU

And this Christmas I have a fine present for you—something finer than was ever given away before—something so delicious you will smack your lips over the last lingering drop. It's a wonderful Raspberry Cordial.

My friend, you don't know how long I have been working over this Cordial—you don't know how many years it has taken me to perfect this perfectly smooth, harmonious drink,

and now I have it I want you to taste it yourself.

And that's why I am making this Christmas present. When you get it don't be too generous with it, for it is very valuable—just keep it for yourself, for a special treat.

A whole pint of this Raspberry Cordial will be packed, with my compliments, with every order shipped on or before December 24, provided you use this coupon.

RANDOLPH ROSE

## Life of Adventure Revealed By Death of C. D. Harrison

The tragic and untimely death of C. D. Harrison, former deputy warden of the federal penitentiary, who was crushed beneath the wheels of a passing train in the Union station Friday afternoon, revealed a career of adventure that outlived fiction.

Harrison, during his youth, had fought Indians in the pioneer days of the frontier. He was one of the captors of the notorious Geronimo, the Indian chief whose reign was marked by a trail of blood.

He was awarded a gold medal by congress for an act of bravery that saved three lives and came within a hair's breadth of costing his own. For his participation in the capture of Geronimo, he was promoted from the ranks of pioneer scout duty to that of first sergeant. He also was forwarded a letter of praise from headquarters in Washington.

During November, 1890, he was on scout duty along the plains between Henrietta and Portville, Texas, and

was traveling across country in a stage coach, which also contained the wife and daughter of Captain Owens, Texas military official. The Red river, running between the two villages, was swollen from recent snows, and when the driver attempted to ford it with his stage coach, the turbulent stream overpowered the horses and capsized the vehicle.

Harrison, who was unable to swim, floundered in the rushing waters while he managed to catch a hold on the overturned stage. He then cut loose one of the horses and rode him to shore, where he secured a boat, towing back to their rescue. He carried them into a settler's home and, on the bare back of the horse he had rescued, he proceeded toward Fortville for medical supplies. The blizzard was so intense that his horse froze to death beneath him, and he was forced to stagger on foot twenty miles to aid.

He was considered one of the most daring scouts in the frontier service. Up until a few years ago Harrison had been deputy warden of the federal prison, but had retired.

## "I EXPECT LYNCHING." Says Negro Captured for Slabbing White Man.

Toccoa, Ga., December 12.—(Special.) "Yes, I expect to be lynched, and don't care," said Oscar Bird, a negro, in Stephens county jail this afternoon where he had just been lodged by Sheriff W. A. Stowe.

Bird was captured by Sheriff Stowe near Tallulah Falls after a long chase through the mountains. When overtaken Bird and his friend, Grover

Jones, were driving in an ox wagon, and carried a miniature arsenal, consisting of a shotgun, a 44-caliber pistol, a Winchester rifle and an abundance of ammunition.

Stowe counted his machine noisily down a hill and had the negroes covered before they were aware of his presence.

Two days ago Bird stabbed J. M. Mares, a prominent citizen of Oconee county, South Carolina, with a large meat knife and fled. Jones, who composed of South Carolina and Georgia citizens have been in hot pursuit since. Mares is not expected to live, according to reports received here tonight.

A crowd of Carolina citizens were

in Toccoa when Sheriff Stowe and Sheriff Davis, of Oconee county, South Carolina, arrived in Toccoa with Bird and Jones.

Despite the efforts of the crowd to get possession of the negroes they were quickly rushed to jail. During the afternoon the number of strangers in town constantly increased and there has been much open talk of lynching.

However, Sheriff Stowe and his deputies say the negroes' lives are safe, that they will be protected at all hazards, and when the reward of \$200 is paid they will be lodged in jail at Wallhalla, S. C.

Thomasville Masons.  
Thomasville, Ga., December 12.—(Special.)—At a meeting of Thomasville

Lodge No. 389, F. and A. M., held this week, the following officers were elected to serve the lodge for the year 1915: Worshipful master, E. H. Jorgensen; senior warden, C. C. Morgan; junior warden, C. L. Polson; treasurer, H. C. Plaster; secretary, J. W. H. Allen; all other, H. H. Martin. The appointive officers will be filled at a meeting

to be held the latter part of the month, and all officers will be publicly installed with interesting exercises on January 14.

## Methodists to Raise Fund For Charity Hospital Work

The annual Christmas offering for the charity work at Wesley Memorial hospital will be taken in the churches of the North Georgia and South Georgia conferences next Sunday.

Last year 216 pastoral charges in the Georgia conferences contributed \$2,067.73 for the fund for free work at Wesley Memorial hospital.

The fund is for the purpose of helping to furnish treatment for the poor who are sent to the hospital. It is not for the hospital itself. Every bed in the hospital could be filled with pay patients and the hospital could make a profit, in so doing, it would not fulfill its purpose.

No patient has ever been denied entrance when there was an unoccupied

bed in the wards of the hospital unless the patient had some disease that was infectious, contagious or incurable.

The annual report of Wesley Memorial hospital for the year ending October 31, 1914, shows that 1,114 patients were treated during the year. These patients came from every part of the state of Georgia and from several other states in the union. Of this number 110 were charity patients who were unable to pay for treatment, and 469 patients were part pay patients. The cost to the hospital for services furnished these charity and part pay patients, those who were paid by others who paid part of their expenses, was over \$10,000. This does not include the value of services furnished the surgeons and physicians who treat all charity patients without charge to the hospital or the patients.

An important part of the work of the hospital is the training of nurses. Young women from all parts of the state and from adjoining states are found in the nurse staff.

The Women's auxiliary has raised during the year over \$25,000 for the purpose of erecting a new hospital building. To this is to be added \$75,000, given by a friend of the hospital.

## MRS. BARNHART ADOPTS HER LITTLE GRANDCHILD

The police of Atlanta have dropped procedure in the case of Mrs. M. C. Barnhart, instigated by the Baltimore police who accused Mrs. Barnhart of abducting Leona Rust, her orphan grandchild. Mrs. Barnhart has legally adopted the child, and the court granted her the right to change the name to that of Leona Barnhart. The child was likewise made the legal heir of Mrs. Barnhart's estate.

## PUT U. S. TAX STAMPS ON OFFICIALS' BONDS

Governor Slaton has advised that all county officials sending their bonds for proper discharge of their duties for their ensuing terms of office, begin January, see that the federal government's emergency tax stamp is affixed. The governor has not yet been advised from Washington as to whether the stamp is necessary, but is awaiting advice. The provision of the stamp which only costs 50 cents will forestall any complications in case the stamp should be necessary.

## ATKINSON TO DISCUSS INTERESTING SUBJECTS

"Christ's Creed for Doubtfuls" will be the topic of this morning's sermon, at the St. Philip's cathedral, Washington and Hunter streets. His night subject will be, "Three Stages in a Preacher's Career." The general public is cordially invited. The day's services will be as follows:

Holy communion at 8 a. m., communicants' breakfast at 8:30 a. m. For those who cannot have breakfast before coming to the service and have not time to go back home for it, all of whom are invited to come to the church house immediately at the close of the service, where they will be welcomed.

Sunday school will be at 9:45 a. m., men's bible class 10 a. m., mothers' class 10 a. m., morning service 11 a. m., Sunday school meeting 2:30 p. m., and evening prayer and sermon 7:45 p. m.

## Laurens Gin Report.

Dublin, Ga., December 12.—(Special.) The ginning report for December 12 showed that Laurens county had ginned up to that time 48,783 bales of cotton, and it is expected that she will gin approximately 5,000 more before the end of the season. If this should prove actual that of 1913 when she ginned something over 53,000 bales.

## Fulton Ginning Report.

The gin report for Fulton county for December 1 of this year, shows 2,204 bales of cotton ginned, as against 1,875 bales to the corresponding date of last year.

## They Create Nerve Power

Kellogg's Sanitone Wafers Renew

# The Merchandising Combination!

DIRECT FROM FACTORY TO USER LARGEST HOUSE OF ITS KIND IN THE WORLD

## American Feather and Pillow Company

MANUFACTURERS  
FEATHER BEDS, PILLOWS AND BEDDING  
WHOLESALE DEALERS  
FEATHERS

We Guarantee Our Goods to Be as Represented, or Your Money Will Be cheerfully Refunded.

High-grade Goods at Lowest Factory Prices. Goods shipped the same day order is received.

Nashville, Tenn. Nov. 23, 1914.

Massengale Advertising Agency,  
Atlanta, Georgia.

Gentlemen:-

Replying to yours of Nov. 20th. inst., we wish to state that you have placed all of our advertising since the organization of this company, and we are very glad to say that our business relations have been both very pleasant and satisfactory.

We are today recognized as the largest mail order feather goods house in America, selling direct to the consumer; and we attribute our success, both to the merits of our merchandise and the capable manner in which you have placed our advertisements.

We realize the success of a mail order house depends on fair dealings to their customers and the satisfactory merchandise sold them, together with the co-operations of a reliable Advertising Agency.

These are the essential facts that are necessary to the progress of a successful mail order house. We are glad to hear of your growth and wish you the increasing success which you deserve.

Yours very truly,

AMERICAN FEATHER & PILLOW CO.

JG-LL.

"LET US FEATHER YOUR NEST"

## SALES HELPS---NO. 5

WE ARE REPRODUCING above a recent letter in appreciation of our Service from a successful mail order house. The very fact that we say this firm is successful is proof positive that its members are of the progressive type, who have applied the principle of The Merchandising Combination to their business. This Merchandising Combination is one composed of meritorious merchandise, together with advertising that will tell the world it is meritorious. A business combining both of these attributes is infallibly successful; but one without the other is strictly inefficient. The American Feather and Pillow Co. saw to it that their products were par excellence; they delegated us to see to it that their advertising was of a like caliber. The result was inevitable—The American Feather and Pillow Co. is a successful firm.

Let us send you our interesting "Year Book."

# STOCKS MADE LINE FIRST A EXCHANGE FOREIGN SECURITIES

## Can Offerings From Abroad Be Held Back So That Stock Market Will Not Be Flooded With Them?

New York, December 12.—(Special.)—The restrictions regarding trading in the stock of the New York stock exchange, which started today, are expected to safeguard the market from heavy liquidation, but there is less of the general feeling of confidence regarding stock trading, as was shown in the case of bonds when trading in them was resumed two weeks ago. In spite of the fact that today's dealings have been with strength in prices of many issues, there is a widely held opinion that heavy selling will considerably hamper the market in the next few weeks. The stocks which will be traded in are nearly all of the issues of the United States and the number of speculative leaders in which trading has been resumed is small. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

The most serious danger to the present holdings of American securities in Europe is the fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

The foreign situation is mixed, with German exchange being the most serious. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

The money market continues active, with call loans made at 4 percent. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

The dividend record of the present market is far more active than that of the preceding three or four months. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

## Shrewd Financier Proves He Is Far-Seeing in Picking Out the Securities for His Foundation Scheme.

New York, December 12.—(Special.)—John D. Rockefeller has always been placed by Wall Street in a class absolutely by himself. The fact that he is the richest man in all the world has been sufficient proof to Wall Street that among the international capitalists of the world he was the shrewdest and most far-seeing. Who besides the Rockefeller Foundation? Wall Street's classification of him has been able to dip into his private fortune to the extent of \$100,000,000 to establish a fund for the promotion of the world's best interests.

There are other securities of companies now in the hands of receivers. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

Wall Street expects the interstate commerce commission to hand down its decision on the proposed merger of the Great Northern, Northern Pacific and Great Western railroads. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

Some suggestions. A number of ways were suggested for increasing revenue, including the raising of passenger rates, the raising of freight rates, and the raising of the rate of interest on the public debt. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

The cotton market showed a steady tendency until Thursday in spite of the fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

# COGNAC TRACED TO ABERNATHY

## Absence of Southern Selling and Better Cables Also Contributed to Advance in Prices—Spot Cotton Quiet.

New York, December 12.—Cotton was lower in the morning, but the publication of the government's estimate of the cotton crop for the year 1914, and the fact that the cotton crop for the year 1914 was 10,000,000 bales, contributed to an advance in prices. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

The market opened steady at an advance of 1/16. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

# Great Enthusiasm and Spirited Trading At Reopening of New York Stock Exchange

## About Seven Hundred Members Cheer as the Exchange Reopens—Market Opened With a Rush and Many Advances in Prices Were Recorded During Session.

New York, December 12.—The stock exchange today resumed its regular functions after suspension since July 30 because of conditions resulting from the war. The reopening was marked by a display of much confidence and enthusiasm, and many of the members of the exchange were in attendance.

The market opened steady at an advance of 1/16. The fact that the amount of cash money which is available here for all the issues of the United States is small, and the number of speculative leaders in which trading has been resumed is small, is a fact which will be a heavy weight against the market in the next few weeks.

There are other securities of companies now in the hands of receivers. **BURNED AT THE STAKE,  
THO: VOWING INNOCENCE****Fifth Negro Is Lynched Near  
Shreveport Within Ten Days.  
Eighth Lynching in Year.**

Shreveport, La., December 12.—Watkins Lewis, a negro, accused of complicity in the murder of Charles M. Fike, postmaster at Shreveport, La., was burned at the stake last night by a mob, despite his protestations of innocence, according to information received today. His charred body was found today bound to a tree near Shreveport, in the southern part of Caddo parish.

Watkins Lewis was the fifth negro put to death by a mob in this parish within ten days and the eighth in a year. Two were lynched last week, alleged implication in the killing of Hicks and the robbery of his store, and early last night two others were taken from a deputy sheriff near Shreveport, after they are said to have confessed to the killing of Cyrus Istockin, an oil field worker, and hanged.

District Judge Bell today ordered the grand jury to meet in special session next Wednesday to investigate the lynchings.

Lewis was taken from the parish jail here by five men, who gained entrance through a window and overpowered the jailer. He was taken from the prison in an automobile and no trace of either the man or his captors was found until the finding of his body near Shreveport. It was reported, it said that several hundred men participated in the lynching.

Sheriff Flournoy was absent from Shreveport yesterday on a hunting trip.

Troubled conditions at Shreveport were reported quiet and no further disorder is anticipated.

**BUDGET SYSTEM URGED  
BY EX-PRESIDENT TAFT**

New York, December 12.—Former President William Howard Taft, guest at a luncheon today at the Lawyers' Club, spoke on efficiency and economy in the national government and advised a budget system.

"All countries that have respectable governments, spend their own, have budgets," he said. "We have acted like children. We have had no budget available through taxation that we have not been able to get. The revenue side of the ledger. Now we are coming to the point where we must keep out of bankruptcy. These three things are the great fundamentals that ought to be created."

He said the great fundamental that ought to be created is the reorganization of the executive departments of government so that they will be efficient and economical. A budget directly responsible to the president, to report to him a comparative statement of economy and efficiency in each department, and a plan for the future. The executive and legislative departments must be kept together and the president must have an annual budget upon which Congress intelligently act.

The co-operation of the executive and legislative branches can be best effected by carrying out recommendations to Congress made in the past. Last messages, that the heads of departments appear on the floor of Congress to answer questions, to take part in the discussion of the budget. Through the secretary of the treasury, present the budget for which the executive departments, with the president at the head, must be held responsible. The opportunity of the secretary of the treasury and the other cabinet members to be heard for an intelligent discussion, and if Congress chooses to ignore the recommendations of the executive, then the responsibility will be placed on Congress. The whole of government and the whole of government income."

**DEMOCRATS OF SENATE  
WILL SPEED BUSINESS**

Washington, December 12.—Senate Democrats in caucus today determined to speed up the legislative program and avoid an extra session after March 4. It was decided to advance the long holiday recess, the senators agreeing to confer with their house leaders on a recess from December 22 to December 28, and to remain seated in the Senate chamber until the first of January. The recess was decided to hold until the session of the senate at least once a week, and after the recess the committee found it necessary.

The corporation bill will have the right of way in the senate as rapidly as it can come from the house. Senator Kern, chairman of the caucus. The legislative program will be extensive otherwise. The conservation measures, the Philippine bill and the purchase bill will be taken up as soon as they come from the house. The immigration bill was not discussed in caucus, but it is expected it will be voted on before many days.

**WILSON MAY ATTEND  
FUNERAL OF PAYNE**

Washington, December 12.—President Wilson probably will attend the public funeral of Henry D. Payne, a New York congressman from New York, who died here last night. The president is expected to be in New York on Monday. The cabinet members, the senate, the chief of the army and navy staffs and the supreme court and the staff chiefs of the army and navy staffs are expected to join members of the house in the ceremony.

The usual congressional eulogies by the legislative committee of the dead statesman will be omitted. A simple eulogistic service conducted by the Rev. Henry D. Cowden, chaplain of the house, and the Rev. Samuel D. Greene of the Calvary Baptist church, will mark the final rites. After the service the body will be taken to Auburn, N. Y., accompanied by house and senate committees.

**FOUR MEN SENTENCED  
TO ATLANTA PRISON**

Montgomery, Ala., December 12.—Sentences of seven years each were imposed by United States Judge Henry D. Clayton in the federal court here upon John Williams, Harry Martin, Frank Moore and John Smith, convicted of bringing explosives into Alabama from Georgia. They were taken to the federal penitentiary at Atlanta Monday. The men were arrested here last March, when a quantity of dynamite, nitro-glycerine and burglar tools were found on Todd Williams, Moore and Martin. The indictment at Tuscaloosa for robbing an Alabama Great Southern passenger train at Jibbittville, Ala., in September, 1913.

**For Aids to Navigation.**

Washington, December 12.—An omnibus bill to authorize appropriations for aids to navigation was favorably reported today to the house commerce committee. The bill provides for \$150,000 for Florida reefs, \$150,000 for Florida reefs, \$150,000 for Mississippi river below New Orleans, \$50,000.

**Case of Miss Cope.**

Chicago, December 12.—A case of Miss Josephine Cope, of Los Angeles, charged with attending a party at the home of a prominent official in connection with the indictment of Commissioner of the Marine of Providence, R. I., was called up before United States continued until December 22.

## GRAND THEATER OFFERS BIG PICTURE DRAMAS

"The Marked Woman" and  
"Julius Caesar" Secured  
for This Week.

The management of the Grand theater has secured for presentation this week at popular prices two of the most spectacular and most realistic motion picture dramas ever shown in this city. Tomorrow, Tuesday and Wednesday will be shown "The Marked Woman," one of Owen Davis' most melodramatic bits, with pretty Barbara Tennant in the title role. On Thursday, Friday and Saturday the feature will be "Julius Caesar," with the greatest of Italian actors, Anthony Novelli, as "the noblest Roman of them all."

The fact that either Barbara Tennant or Novelli is to appear in a screen picture is inducement enough to attract motion picture patrons to any playhouse in the country no matter what the drama they are presented. But with two such plays in features of distinctively high class, such as will be shown this week at the Grand, Atlantans can expect about the very best there is in the field of motion pictures.

The introduction of Barbara Tennant to the moving picture stage was due largely to accident. Crossing from England to this side of the Atlantic several years ago, she established a touring company of her own, and afterwards followed Laurence Olivier in the Hungarian forces. "The Seven Sisters," a chance visit to motion pictures show impressed her with the possibilities which film work opened up for her dramatic power. She subsequently became a member of a motion picture stock company, and since then she has risen to a place among the real stars in the territory.

"The Marked Woman," in which Miss Tennant is now starring, is a brilliant play by Owen Davis. She plays the part of a young Russian noble who has adopted nihilism as her political faith because of the brutal murder of her sister by Cossacks.

The great Novelli, who is to the new artistic Italy what Caesar was to old Rome, plays in the role of Caesar, what is undoubtedly the greatest part in his career. His remarkable work in "Quo Vadis," "Boracius" and "Antony and Cleopatra" made him famous the world over. His work in "Julius Caesar" is even greater. This new picture drama, even made. With more than 20,000 persons in many of the scenes, the production of a miniature city of Rome covering six blocks, the costly building of more than 200 "interiors," and the elaborate costumes of an army of people, has made the cost of the production enormous.

The story of "Julius Caesar" follows closely the history of the great events which shaped the world's history in centuries ago. It tells of the harrowing and cruel murder at the hands of Brutus, the costly building of the temple, the great battle of Philippi, and the final triumph of Caesar in himself to make the world's history.

"Julius Caesar" is an able cast, which includes many of the well-known actors from Quo Vadis and the

## THE MASTER KEY

Thrilling scene from Second Episode of great serial shown at the Savoy and Alpha tomorrow.

"Antony and Cleopatra." Jennette Trimble, who played Cleopatra in the Egyptian classic, has the role of Caesar's wife, while Mistruppi, the Chilo of "Quo Vadis," gives a striking picture of the great Cato.

Despite the importance of these two spectacular productions and the recognized ability of the artists taking the leading roles, there will be no advance in prices. Five cents for all seats at matinees and 10 cents in the evenings. And during each performance the orchestra will render the best in musical selections.

### Lloyd Has Grudge.

Frank Lloyd, principal director of the new Rex company at Hollywood, Cal., is much annoyed because the local police chased away a band of extras just as he was about to use them as "local color" in a spy drama.

## TOMORROW

# "The Master Key"

(2nd Episode)

With Ella Hall and Robert Leonard in the leading roles.

## AT THE SAVOY

Smiles, Tears, Sorrow, Joy

Every one of these emotions of human life vividly portrayed in this greatest and latest Universal Serial Drama.

## Would YOU Have Parted From Her?

Would YOU have left the girl you loved if you were convinced her father was a murderer? What would YOU have done, if, on one side stood blighted love, lost hope and a black future, while on the other side were wealth, position and the realization of true love?

That's the terrible problem John Dore faced. It's a supremely tense situation, only to be conceived and answered by such a master mind as John Fleming Wilson, author of the "MASTER KEY."

See it tomorrow.

## SERIOUS ACCIDENTS AVERTED IN FILMING "THE MASTER KEY"

The Second Episode Furnishes  
Thrilling Scene at Savoy  
and Alpha Monday.

"The Master Key," the second installment of which will be presented at the Savoy and Alpha tomorrow, has already created an astounding interest all over the country. The first installment, which was presented last Monday while only introducing the characters and opening chapters, played to over 100 people in Atlanta which smashes all records for the first showing of any serial in this city.

In the staging of the second episode, however, an accident occurred which came very near resulting seriously to Ella Hall.

Everything was in readiness and the scene was about to start. Some one suggested that they test out the mine and the cable before attempting the ride. A weight of about 300 pounds was lowered from the mine on its journey. Just as it reached the cable broke from the ore car as it was a sharp snap. The cable broke from its fastenings and the bucket dropped with a crash into the chain. While-faced, the players looked at the mine, thinking what must have happened if Robert Leonard had been in the car instead of the test weight.

The great, and the action was taken. On the way out a premature explosion sent the mine and the ore car, leaving Ella unable to stop it. As it shoots from the mouth of the tunnel Leonard, as the mining engineer, and realists, who were standing in an ore bucket which crosses the track, saw the mine along the track at top speed, across a canyon 100 feet deep, and stopping where the mine crosses the track, leaps from it and drives Miss Hall from the ore car as it passes under him.

The following day the cable was repaired and again tested, this time to the great relief of the players. And at that, the scene as it was taken was without doubt the most dangerous. The ore car in which Miss Hall was riding was really bound for some ore dump, and with no one on board to check it in its wild race, if Mr. Leonard had failed to catch her as she went under, she would certainly have been dashed to death. But in the lexicon of the photograph there is no such word as failure, and the scene was taken without injury to anyone.

## STRONG SELIG DRAMA AT VAUDETTE TUESDAY

"Unrest" With Leading Selig  
Players in Cast Full of  
Intense Moments.

"Unrest," a self psychological drama featuring Tom Satchel and Beanie Epton, will be shown at the Vaudeville Tuesday, December 15. The cast is a strong one, and includes in addition to Tom Satchel and Beanie Epton, the following well-known actors: Harry Landale, Joseph Hutton and Ray Watson. The story of the picture is as follows:

Dean, muscular, clean-cut fellow, is a mystery to his father, who engages a psychological scientist to give him a course of special treatment. Dean does not like society and the company of home life, but prefers the companionship of his father, who in an automobile race, in which he is an automobile race, in which he is an automobile race, in which he is an automobile race. Finally he meets his fate by rescuing a pretty coming to her drowning. The acquaintance quickly becomes a love affair, and Dean's athletic tendencies and brings Beanie home as his bride.

## LILLIAN RUSSELL TO APPEAR ON SCREEN

At the Fort Lee studios of the World Film corporation Miss Russell is working on a moving picture version of her greatest stage success, "Wildfire." She plays the part of a girl who is originally produced by Joseph Brooks, in Cincinnati. The audience at the opening night were a bit disappointed, because they had come prepared to see a musical play, but saw nothing of the sort in "Wildfire." Miss Russell, as a character, and she made the audience realize that the story of a actress of distinction. They were not disappointed when the final curtain fell.

That first performance marked her entrance to the legitimate stage, that packed audience in Cincinnati was the forerunner of a long series of similar audiences that gathered wherever Lillian Russell appeared. "Wildfire" was announced. When her tour was completed Miss Russell decided to return to private life, but she received so many requests from her admirers all over the United States and Canada, that she decided to return to the stage. To him is due the credit of placing Miss Russell under contract, and her legions of admirers will welcome the opportunity of seeing her again.

## EXPENSIVE DECORATIONS IN KLEINE FEATURE

With characteristic lavishness, George Kleine has arranged for unique and expensive interiors in his coming production, "Stop Thief," founded on the Cuban House comedy of that name. The library set boasts 2,500 real books, including the usual "prop" books only. There is also a fine hall with a wainscot valued at \$300. Beautiful Flemish tapestries for the dining room and many oil paintings add a touch of realism to the various scenes as original as it is refreshing.

The big comedy is being rapidly completed. Mary Ryan, as well as Harry Daxey, both of whom are playing respective leads, are enjoying the novelty of picture work, and delighted to find that they can readily exchange successful stage presence for the all-essential "picture personality."

## CAVALIERI IS COMING IN SEASON'S BIGGEST PICTURE ATTRACTION

Lina Cavalieri, noted as the world's  
most beautiful woman, and one of the  
most famous singers on the operatic  
stage, comes to Atlanta for her first  
appearance in moving pictures Tuesday,  
Wednesday and Thursday of this

Mrs. LINA CAVALIERI  
PERSON LESCAUT

week, when the film version of "Manon Lescaut" is offered at the Strand theater.

This is, no doubt, one of the biggest moving picture attractions presented by any local theater this season. Such a picture, so commended upon it that the Strand management does not hope to lose a single patron. The enormous crowds that are predicted to be in attendance.

"Manon Lescaut," besides being the only moving picture in which the incomparable Cavalieri has ever performed, is a picture of the most beautiful and most dramatic scenes and is in six reels. The cost of production was \$50,000. The entire company was transported to France on board a special ship in order that the picture might be staged in the exact location of the career of France's most picturesque character, Manon Lescaut.

## MAKOTO INOKUCHI IN "OFFICER 666"

Makoto Inokuchi, the well-known Japanese actor, is one of the stars to be seen in "Officer 666," a coming attraction at the Strand. Inokuchi is a well-known actor, having studied at the University of Chicago and Princeton and Harvard. He is also a writer of note in his own country and has translated the works of Edgar Allan Poe's "Gold Bug" and "The Hound of the Baskinville" into English and American. He has also written several plays, and is the original "Nipper" in the original "Nipper" and "Pail For." The "Daughter of the Samurai" is a picture of the class family.

W.W.—You do not mention the name of the firm producing the pictures in which you are interested. Write again and I will tell you.

Fan-Yen, Alice Jole is married to Thomas Moore. Lillian Hall is not married. Send your love to the studio. It will reach her all right.

Billie—No, Florence Labadie is not married. She is married to the Thannhouse Film company, New Rochelle, N.Y.

Fanny S.—Cleo Madison is with the Universal company. So is Grace Cunard. Maurice Costello is with the Vitagraph company.

Helen S.—Francis X. Bushman says he is not married, so you'd better take his word for it, don't you think? I don't know the names of the wives of Carlyle Blackwell and G. M. Anderson.

## Violet Mersereau.

Violet Mersereau has taken up ice skating. She may be seen with several of her friends most any night at a well-known New York rink, executing graceful little stunts or playing at hockey.

## MARGUERITE CLARK AT THE MONTGOMERY

Fascinating Actress in Strong  
Photo-Play on Monday  
and Tuesday.

Marguerite Clark's presentation in the photoplay production, "Wildpower," at the Montgomery some time ago, made such an impression upon the people of Atlanta that the management of the Montgomery take pleasure in announcing for Monday and Tuesday of this week the fascinating and irresistible actress in another feature, "The Crucible," by Mark Lester.

In the powerful and heart-grIPPING drama of "The Crucible" the portrayal of a soul's ordeal in the melting-pot of suffering from which every human emerges unscathed and strengthened by its agonies, Marguerite Clark plays the part of little Jean Panshaw, at first boyish and tom-boy, and later, as a woman, a girl who is destined to a reformatory, who later triumphs over the shame of her imprisonment and the sordid corruption of her environment, returning good for evil to those who worked havoc with her life.

Jean Panshaw is brought up by her father, a nearly like a boy as possible. One day, at a picnic, a playful

trick of Jean's enrages her mother and sister, and when they arrive home Amelia nags and bullies Jean till she catches up a sickle in a spirit of mischief, and cuts herself. Amelia, alarmed, throws her hand up in a quick gesture, and cuts herself on the sickle. She screams to her mother, declaring that Jean has attacked her. This her mother believes, and joins her sister to Amelia, and eventually Jean is sentenced to the reformatory.

She later wins her pardon, not being wanted at home, and goes to the city, where her struggles are many. How the clip of happiness is snatched from her life, how the shadow of the reformatory again looms over her, how she hears of fire upon her weak sister's head, and how she saves her own life, and is rewarded for her long struggle against evil and, eventually, she is reunited with her usually strong photoplay.

### How Capud Won.

Al E. Christie, of the Nestor Comedy company, has returned from his three week trip east and is again here, working with his company of laugh makers. "How Doctor Capud Won" is the title of the first of his pictures to be produced since his return and, judging from the groups of laughing players that stand about the company as they are working on it, there seems to be strong indication that his short absence from the stick of the company to put him in condition to produce even better comedies than his former ones.
